"BIG DRIVE" TO INCREASE  
COUNTY'S CORN YIELD STARTSE. L. Whitsitt of Purdue Arrives  
Today and Will Remain Here  
Until End of Next Week

TO BE AT ARLINGTON TONIGHT

Loss Annually Due to Improper Germination of Seed Corn is Shown  
by Mr. Whitsitt

SECRET IS IN TESTING SEED

Reveals How by Careful Selection  
Average Should be 75 Bushels—Less Than 50 Here

The "big drive" for the improvement of Rush county's corn crop this year was started this morning when E. L. Whitsitt of Purdue university arrived here and placed his services at the disposal of the executive committee of the crop improvement organization.

He was assigned to Rush county by G. I. Christie of Purdue university, who has been appointed state food director by Governor Goodrich to increase the crop yields in Indiana this year on account of the war with Germany and the consequent need of more foodstuff because of the larger demands.

A man from Purdue has been sent to every county where there is not a county agent. In counties with such officials no crop director is needed. Mr. Whitsitt will be here until the end of next week, providing the committee can keep his occupied.

County Superintendent C. M. George, who is chairman of the executive committee took Mr. Whitsitt to visit the Rushville township schools this morning and this afternoon they spent in Posey township. Mr. Whitsitt will remain in Arlington and address the Posey township farmers meeting there tonight.

Township farmers meetings will be held all over Rush county tonight, as was planned at the meeting of the executive committee last Saturday, with the exception of Ripley township, which has already held such a meeting, and Washington township, which changed its meeting to Thursday night so that addresses could be made by Judge W. M. Sparks and A. L. Gary. Mr. Whitsitt will also speak at the meeting at Raleigh tomorrow night. A. L. Gary will speak at the Noble township meeting at New Salem tonight and other speakers are being arranged for at other township meetings.

Mr. Whitsitt's work will be directed solely towards increasing the yield of corn in Rush county. Special stress will be laid on seed selection as the method by which the production can be enlarged. It is not a question of a larger acreage because it is next to impossible to increase that at this time.

Mr. Whitsitt showed this morning the opportunity Rush county farmers have to do their share of the work that is developing upon the tillers of the soil in the war crisis. The question of crop improvement, it is pointed out, is no longer a question of personal gain—although this will come along with increased yields—but one of duty to one's country. It has been emphasized frequently in the last two weeks that the man who works in the field can be just as patriotic as the man who shoulders a gun by raising all that is possible on his ground.

Mr. Whitsitt says the average stand of corn in the state is seventy per cent, whereas with ideal seed it should be ninety per cent. When seed corn is tested there is a hundred per cent germination and ten per cent loss is allowed because of cut worms and other things which attack the stock and the ear.

So in the whole state, Mr. Whitsitt points out, there is a loss of twenty per cent due to failure of the seed corn to germinate.

"There are an average of 3,500 hill—and sometimes there are as many as three stalks to the hill—and sometimes there are as many as three stalks to the hill—there should be 7,000 stalks to the acre. Many farmers plant three kernels to the hill. The average weight on an ear of corn is three-fourths of a pound. With a ninety per cent stand, the yield should be seventy-five bushels to the acre. The average in this county is close

CONSCRIPTION  
LIKELY TO PASSSenate Committee Reports Bill Out  
This Afternoon in Modified  
Form by Vote of 10 to 7

HOUSE OPPOSITION APPEARS

War Department Has Plans to Get  
First Levy of 500,000 Men in  
Camps by August 1.

(By United Press.)

Washington, April 18.—Selective conscription as advocated by President Wilson towards raising an army of 2,000,000 men will probably pass in modified form.

Under the personal touches of President Wilson, who has visited the capitol to urge action, the senate committee this afternoon quickly reported out the measure with a promise of immediate action. Several committee members who insisted on the volunteer system, declared their intentions to fight to the last on the senate floor. The senate committee reported favorably on the bill by a vote of 10 to 7.

In the meantime house opposition to any kind of conscription—until the volunteer system is first tried—which appeared to crumble somewhat over night, sprang up again

CINCINNATI LOOP  
ORDINANCE CARRIESEstimated Vote is Fully Two to  
One if Not Three to One, Thus  
Assuring I. & C. Extension

I. &amp; C. CAR TO RUN FIRST DAY

The rapid transit loop ordinance carried at Cincinnati yesterday by a vote estimated at fully two to one. It was thought that it might be as much as three to one as soon as the complete returns were in.

This assures the extension of the Indianapolis & Cincinnati traction lines from this city by way of New Salem, Andersonville, Brookville and Harrison, Ohio, according to the statements of Charles L. Henry, president of the I. & C., made in Cincinnati previous to the election. He stated repeatedly in public addresses there that the I. & C. would run a car over the loop the first day it was completed. It is not known how long it will take to build the loop. Mr. Henry said that work on the extension would start today if the ordinance passed, according to the Cincinnati Commercial-Tribune.

A subsidy has already been voted the extension in Rushville, Noble and Richland townships, and also in the townships in Franklin county through which the proposed extension will pass.

## GET PAY FOR NINE HORSES

W. E. Inlow and Others Win Dam-  
age Suit in Marion Circuit Court

William E. Inlow of this city, his brother, Cyrus E. Inlow and George O. Ogdon of Shelbyville won a judgment of \$1,593.93 from The Campbell & Reid and Western Sales Stables company of St. Louis in the Marion county circuit court yesterday for nine horses, intended for the allies armies in Europe, which suffocated in railroad transit from Shelbyville to Indianapolis. The jury upheld the contention of the plaintiffs the loss of the horses, which were shipped in a box car instead of a stock car, was no fault of theirs. They had turned the stock over to the agent for the buyers.

NO DOUBT ABOUT  
SHOT FROM U-BOATReport Direct From the U. S. De-  
stroyer Smith Says Officer on  
Deck Saw the Periscope

SOME THOUGHT IT A MISTAKE

Reports Are Received From Three  
Different Stations Confirming  
First Statements

(By United Press.)

Washington, April 18.—All doubt that a submarine actually fired at United States destroyer Smith was swept aside today when a report direct from the Smith said the officer on deck actually saw a periscope 400 yards from the vessel.

The statement of the officer was substantiated by the quartermaster of the turret crew.

Up to today some navy men had thought the Smith mistaken.

Reports were received from the Charleston navy yard that heavy firing was heard off Provincetown, Mass., early today. The report stated three separate stations told of the firing.

The first report was heard at 9:15 at the coast guard station at Provincetown. This statement said that seventeen shots were heard at intervals and after fifteen minutes.

NEWCASTLE MEMBER  
OF THE GUARD GUILTYSecond Lieut. Robert Hall Sentenced  
to 20 Years For Negotiating  
Commission With Mexico

OTHER CHARGES PROVED TOO

Washington, April 18.—Second Lieutenant Robert Hall, First Indiana Infantry, Indiana National guard, has been sentenced to 20 years imprisonment on one charge that he negotiated a commission with the Mexican government. He was a member of the Newcastle company.

The charges against him included loss or disposition of confidential maps of the government in Mexico, bigamy, forgery, embezzlement, sedition and of disobeying standing orders.

He was found guilty of the charges with the exception of that charging loss of government maps.

The war department announced today that President Wilson had confirmed the court martial sentence and designated the United States penitentiary at Leavenworth, Kas., for his confinement.

New York, April 18.—Mr. Bernhardt has rallied from the operation performed at Mt. Sinai hospital last night and it resting easy but is still seriously ill, her physicians stated today.

REMONSTRATORS  
TO BE HEARD MAY 15City Council Passes Improvement  
Resolutions for Paving Third  
Street and Oiling

CHARLES L. HENRY OBJECTS

Says Paving Would be Hardship  
Due to High Cost of Materials—Clean-up Week May 7

The city council last night adopted the oiling plans and the plans for the paving of Third street, and after passing the improvement resolutions in both cases, set May 15 as the time for hearing remonstrances on the oiling and also on the paving of the street.

Charles L. Henry, president of the Indianapolis and Cincinnati Traction company, appeared before the council and asked that the paving of the street be deferred for the present. Mr. Henry told the council that he was well aware of the fact that the street needed improving and that his company was not opposing the improvement, but did not think this was the logical time for letting the contract.

Mr. Henry appealed to the council along patriotic lines, pointing out that his company along with every other company and individual will have to help bear the burden of the war. The present cost of materials and a shortage of labor also was pointed out to the council. If the street were put in the I. & C. would be required to build its tracks new and this cost at the present time would be very high. It is planned to use a steel tie in paving the street and Mr. Henry declared that it was impossible even to get quotations on steel. He pointed out that the abnormal prices would not last forever and that just as soon as prices dropped the traction company would gladly co-operate with the city in building the street.

The head of the traction company stated that ordinarily the traction line's cost of the improvement would be about \$6,000, but now with the increased cost of materials and labor the improvement would cost just about double. "Without a guarantee of being able to secure materials," said Mr. Henry, "I think it unwise for the council to let a contract at this time with no assurance that the street would be completed."

The council gave no indication of what it would do and proceeded to pass the resolution and adopt the plans and specifications. It was intimated that the council would go ahead to a point of receiving bids and if the bids were excessive, then the street would be permitted to drop until some future date. The plans call for the paving with four kinds of material, brick, concrete, asphalt and wooden blocks.

The oiling plans are similar to those of former years, except that they call for a lighter oil. The council and engineer agreed that a lighter oil should be used this year in view of the fact that the streets have been oiled for the past three years and an oil that will go in the ground is needed, it was believed.

While before the council President Henry called attention to the condition of Hodges branch and offered to co-operate with the city in repairing it so that the water will not overflow into Seventh street. He pointed out that traffic on his line had been delayed several times a year by high water. Mr. Henry was of the opinion that the ditch should be cleaned and then if the trouble was not eliminated it could easily be found and corrected. A petition asking for the repair of the drain will likely be filed. The city has been seeking to have the ditch repaired for the past three years, but could find no way to start the work. The part of the ditch outside of the

Continued on Page 2.

## TWO MEN BEFORE THE MAYOR

Both Plead Not Guilty to Crimes  
Charged and Trials Are Set

Two men were arraigned before Mayor Bebout last night. Harry Barrett, charged with assault and battery on John Dixon pleaded not guilty and will be tried Monday morning at nine-thirty o'clock. The other was Frank Hudson, who was charged with permitting dead animals to remain on his premises. It is alleged that Hudson permitted a dead horse to remain on his premises longer than twenty-four hours as is provided by law. He entered a plea of not guilty and will be tried Monday morning at nine o'clock. The penalty for an offense of this kind is a fine of not less than \$5 nor more than \$25.

RECRUITS BEING  
EXAMINED TODAYIndications Are That Work Will be  
Completed by Tonight and  
Mustering Will Start

LIEUT. COSTER IS COMING

Seven Out of First Eight Undergoing  
Test Before Twelve O'clock  
Are Passed

The work of examining the men signed up for the local company of the National guard was progressing rapidly this afternoon and it was believed that most of the men would be examined by tonight. The examination was in charge of Lieut. Bruner of Greenfield, a member of the medical corps.

The examination was conducted at the office of Dr. Lowell M. Green. Each man was given a rigid physical test and it was estimated that a large per cent of the men signed up would pass.

An order was received this morning from Adjutant General Harry B. Smith that Lieut. Coster of the First Regiment would be here tonight to muster in the local company. Gen. Smith advised that a place be held in readiness for the mustering in of the company. It was believed that all those who passed the examination would be mustered in tonight and in case the examinations were not completed the other members would be added just as rapidly as they passed the tests.

There was an unmistakable air of military activity on the downtown streets of the city this morning. Groups of young men appeared on the streets early in the day and there were many questions as to where the examining officer was to be found. The room in Main street, that has been used for recruiting headquarters, was crowded all morning and there was great excitement around the place.

Lieut. Bruner arrived at ten o'clock and at once opened up headquarters in Dr. Green's office. The actual work of examining started at eleven o'clock and by noon eight men had been examined, seven passing. If this ratio was continued throughout the day, the local company will start off with a membership of well over the hundred mark.

PATRIOTIC MEETING

Milroy will hold a patriotic meeting Saturday afternoon. Elaborate arrangements are being made. Judge W. M. Sparks of this city will make the principal address. Arrangements are being made for a drum corps from this city to be there.

Postmaster Hunt has received some additional literature on the navy, showing the various branches of service and the requirements. Prospective recruits are urged to secure some of these booklets.

DATES FOR CHILD  
WELFARE WEEK SETSpecial Observance Here Beginning  
April 28 Will Consist of Ser-  
ies of Lectures

PRIZES FOR BABIES OFFERED

Ones Making Most Progress in Six  
Months to Receive Awards—  
Whole City to be Aroused

"Better babies, better mothers, better city" is the slogan chosen for the child welfare week to be conducted in this city during the first week in May by the federated clubs of the city. The purpose of the movement has been broadened from a "Baby Week" to a "Child Welfare Week" in order that children of all ages may profit from the beneficial program which has been arranged.

The biggest meeting of the week and the one which will close the program will be conducted on Saturday afternoon, May fifth, in the Wyatt Furniture Store. At this time, Miss Straight, the visiting nurse, will give a talk on "The Baby." She, too, will demonstrate the proper way to dress, undress, and bathe the baby. In connection with her talk, exhibits will be given of the proper clothing for children to wear, the proper things for them to play with. Miss Kate Dennis, domestic science instructor in the high school, will give a talk on "School Lunches and Proper Balanced Diets." Her talk, which will include suggestions for diet of children of various ages will be augmented by a demonstration showing relative values of foods. Dr. W. S. Coleman and Dr. Lowell M. Green will give talks on the health of the baby and Dr. Chadwick will talk on the importance of caring for children's teeth. The program, in all, will be arranged so as to be instructive to parents of children of different ages as well as babies. The public is invited to this meeting and mothers are asked to bring their babies.

The program for the week will be opened on Saturday afternoon April 28 when an examination will be held at the Graham Annex of the babies. In six months, the same babies will be examined and those making the most marked progress in this time will receive the prizes. Very substantial prizes are being offered for the babies improving the most.

The prizes will be a deposit in each of the four banks of the city. The awards will be given by the banks—the Peoples National, the Rushville National, the Rush County National and the Farmers Trust Co. There will be a first and second prize for the little boys and a first and second for the little girls. Any baby in the county between the ages of eight months and two years is eligible. All mothers are urged to enter because of the worth of the examination to be obtained free of charge.

Well Bought is Half  
Sold

Merchandise that is well bought does not linger long on the store shelf. It does not stare the retailer in the face and keep him awake nights.

Nowadays, the wide-awake retailer picks his merchandise with the idea of making a quick turnover.

The public today is an informed public—and knows, through reading newspaper advertising, just what it wants.

Efficiency, speed, and economy to the retailer, and service and satisfaction to the customers, are assured in stores where up-to-date advertised brands of merchandise are shown.

# WHEAT QUOTATIONS ARE STRONGER TODAY

Regain Some of Yesterday's Losses But Hogs Decline Twenty-Five Cents.

RECEIPTS ARE 500 GREATER

Wheat prices regained some of the heavy losses of yesterday, but hogs went off twenty-five cents in Indianapolis with receipts five hundred greater.

In Chicago, May wheat was up five and three-quarters; July, six and a half; September, two and three-eighths. May corn advanced three and a half; July, three cents; September, two and an eighth. May oats went up one and three-quarters; July, one cent; September, five-eighths.

In Indianapolis No. 2 red wheat was quoted nineteen and a half cents higher than yesterday and milling wheat went up fifteen cents. Corn was up a cent and a half and oats a cent.

## CARRANZA MOBILIZES HIS TROOPS ON BORDER

Army of 30,000 Mexicans Within Striking Distance of El Paso Causes Uneasiness

### CHASE FOR VILLA ABANDONED

El Paso, Tex., April 18.—General Carranza's mobilization of troops along the border continued today and it was learned that General Murguira has given up the Villa chase and returned to Juarez with his 5,000 men.

Withdrawal of virtually all of Carranza's forces from central Mexico has been completed. It is reported one state is now completely abandoned by the federal forces.

Approximately 30,000 Carranza troops are now within fighting distance of El Paso or other border points and the situation is causing uneasiness.

## AUSTRIAN CABINET QUILTS

Berlin, (Via London), April 18.—Resignation of two Austrian cabinet members was announced in Vienna and received here today.

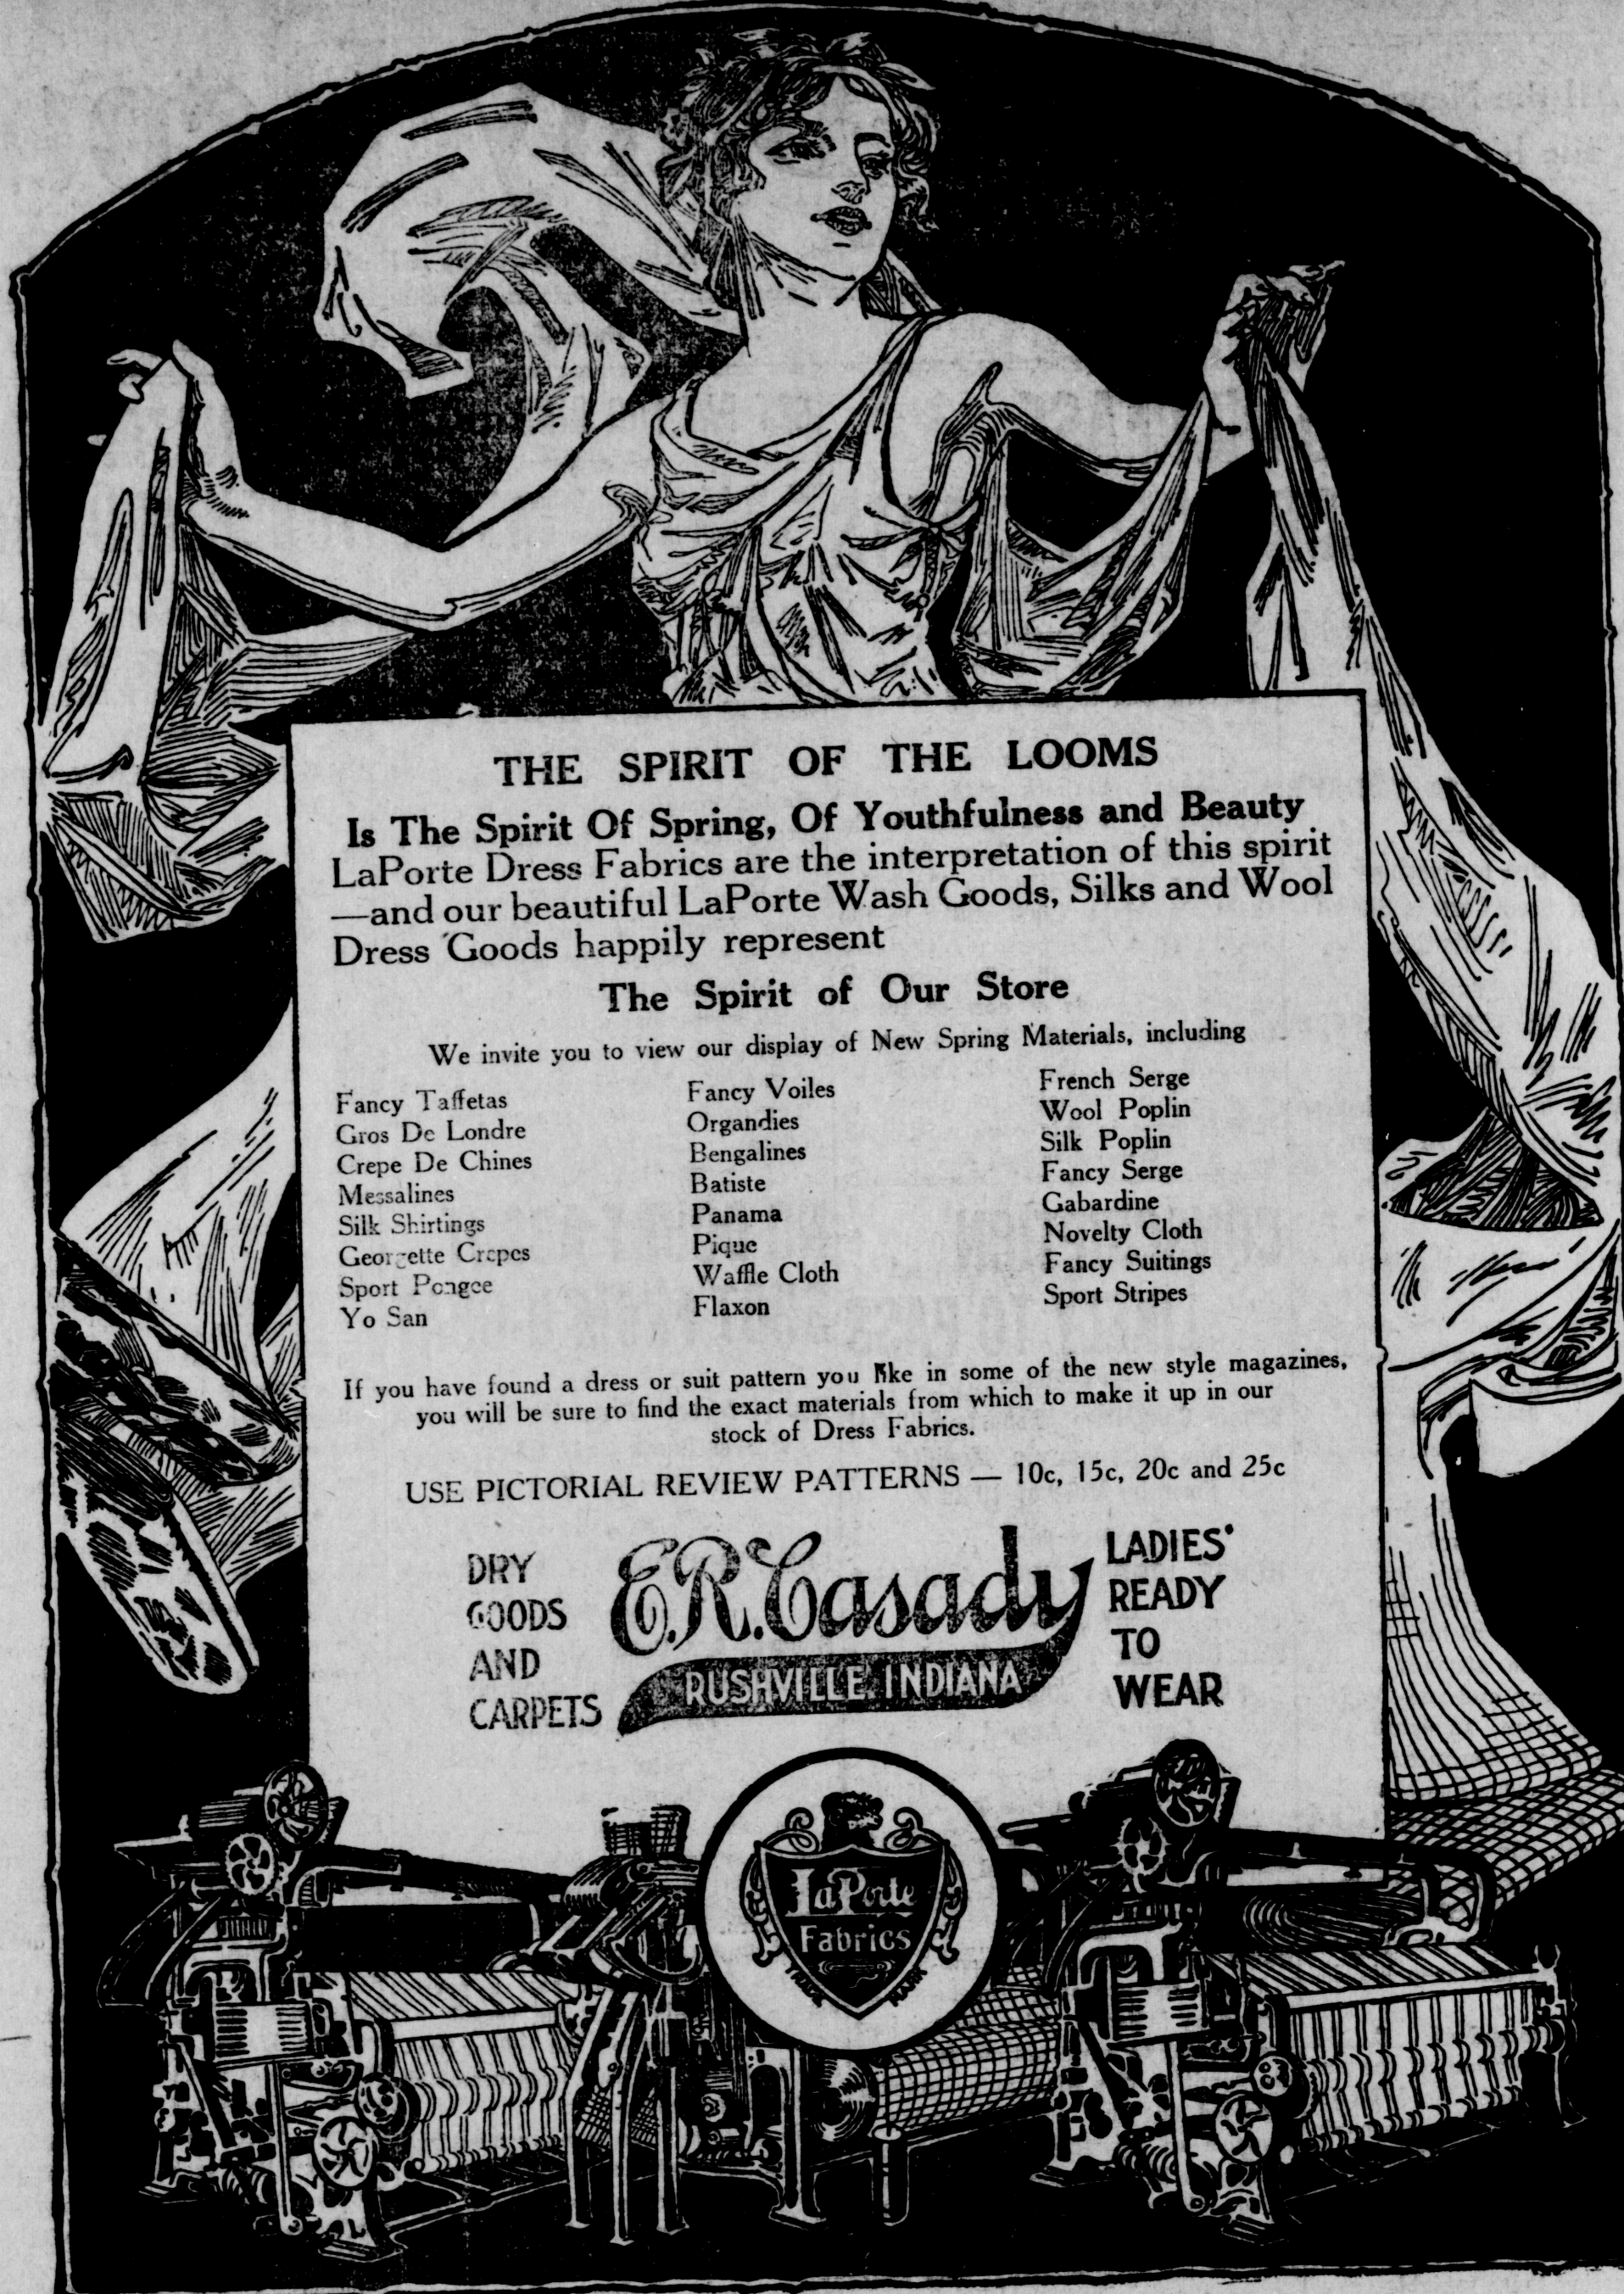

Great significance may be attached to these resignations since they were members of the German party. It is possible that the German and Austrian censorship is concealing considerable anti-German feeling in Austria.

## Notice of Improvement Resolution

### TO WHOM IT MAY CONCERN:

Rushville, Ind., April 17, 1917.  
Notice is hereby given by the common council of the city of Rushville, Indiana, that it is desired and deemed necessary to make the following described public improvements in the city of Rushville, Indiana, as authorized by Improvement Resolution No. 27, adopted by said common council on the 17th day of April, 1917.  
Laying of the streets in the city of Rushville, Indiana.  
All work done in the making of the said described public improvements shall be in accordance with the terms and conditions of said improvement resolution and the detailed drawings, plans, profiles and specifications which are on file and may be seen in the office of the city clerk of said city of Rushville.  
The common council of said city has fixed **TUESDAY, THE 15th DAY OF MAY, 1917,** as a date upon which remonstrances may be filed or heard by persons interested in or affected by said described public improvement and on said day at 7:30 o'clock p. m., said common council will meet in the council chamber in said city of Rushville, for the purpose of hearing and considering any remonstrances which may have been filed, or which may be presented, and will hear all persons interested in or whose property is affected by said proposed improvements, and will decide whether the benefits that will accrue to the property, abutting and adjacent to the proposed improvements, and to said city will be equal to or exceed the estimated cost of the proposed improvement, as estimated by the city civil engineer.

CARL L. GUNNING,  
City Clerk.

### No Reflection on Patriotism.

There are indications that there will be considerable opposition in the Senate and House of Representatives to the President's request for the adoption of the conscription system in raising the 2,000,000 men which will be needed in the near future to carry on the war. One of the chief arguments of those who apparently intend to oppose this military policy is that it is a reflection on the patriotism of our young men. But the plan is not advocated with any such idea in mind. It is true that many thousands of our young men who volunteered to go to Mexico and "get Villa" became so disgusted at the policy of inaction which was pursued on the border that they are loath again to enter the military service, at least until they are assured that they will be engaged in work of a more serious nature than cleaning stables, policing camps, and guard mount. It is no lack of patriotism which causes them to hesitate. These are the very men who are anxious and willing to tackle the Huns.

Conscription is necessary, not primarily to gather in the "slackers," although it may serve its purpose in that direction, but because the conscription which is proposed is to be selective in its nature. It is a noble sentiment which prompts Americans in every walk of life to rush to the colors when the call to arms is sounded, and it is an inspiring sight to see, but the enthusiasm of the patriot does not always make for the best efficiency. The men on the farms, for instance, have always been foremost in responding to their country's call, but the vast army which we are about to raise should not include a disproportionate number of farmers, or of laborers.

Of the 28,000,000 persons engaged in gainful occupations in 1910, according to the census of that year—the latest available figures—17,000,000, or 45 per cent were between the ages of 21 and 44 years, or the class from which the bulk of the army will be recruited. There will be many who will fail on the physical test.

It is said that it requires the industry of 15 men to keep one soldier in fighting trim in the field, and it must not be overlooked that in addition to this the duty devolves upon us to prevent interruption to the food supplies and equipment which must go to our Allies, which are as necessary to them as our man-power. Bearing these considerations in mind, the value of selective conscription is apparent. Under such a policy no division of occupation will be called upon to provide more than its fair quota, having in view the part which each division will play in keeping the Allied armies properly supplied.

## The Harvest Emergency.

The husbanding of a matured crop promptly is often the most vital and crucial point in production and is the point of the heaviest labor demand on the farm. The federal department of agriculture, co-operating with the state departments of agriculture and other agencies, should take steps to mobilize sufficient farm labor to meet all emergencies which may arise.

One of the principal limiting element of food production is the labor supply on the farm. Indiscriminate enlistment from the farms with no plan for labor replacement will reduce food production below its present low level.

The plan for public defense should include as definite a provision for enlistment for food supply as for service at the front.

More than two million boys between the ages of 15 and 19 years in the cities and towns now engaged in productive work vital to the nation constitute the most important labor resource, hitherto unorganized and unutilized, but available for this emergency.

The plan for military enlistment should be broadened to include in the national service those who, by reason of their age or physical condition, are permanently or temporarily incapacitated for active military duty but who are able to render the government equally indispensable service in the production of food, supplies and munitions.

This enlistment should include three classes of men—men beyond military age, men for military age but not accepted for active military duty, and boys under age for enlistment.

The government should make plans at once for the mobilization of this important resources for the production of food and other necessities. This proposed enlistment in the national service should be regarded as part of the public patriotic service in the present war and be given proper official recognition.

One of the practical patriots of the day will be the farmer who strains every nerve in the production of foodstuffs for the army and the civilian population. We can reduce our wardrobe to a shoe-string and a shirt if necessary, but we cannot subsist on water and wind.

The government is to control absolutely the prices which manufacturers may charge for war munitions. That's good. But let's go even farther and have a federal commission to prevent speculation in foodstuffs and jail the price boosters.

A movement is on foot for the government to confiscate all incomes in excess of \$100,000 a year. Guess all of us here are safe.

Love in a cottage is ideal—when the cottage contains something more substantial than love.

Just keep your eye on the Mex. He's worse than an egg that won't hatch.

A cynic is a man who believes nothing and knows less. We have a few.

Indianapolis—Farmers are urged to conserve their supplies of eggs and keep more poultry by Stanley J. Wyeoff, president of the Indianapolis storage company.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

## DATES FOR THE CHILD WELFARE WEEK ARE SET

Continued from Page 1.

Displays of interest to children and their mothers are to be made in all of the stores and store windows. A number of merchants have signified their intention of co-operating to make the week a success by making extensive displays of children's apparel, furniture, playthings and other things of interest. All of the merchants are urged to make exhibits so that the entire city may catch the spirit of the purpose and the benefit of the week.

The school children will have an opportunity to co-operate, for prizes will be offered in an essay contest, when the children will be asked to write on some phase of "Child Welfare." On one afternoon of the week set aside, although the day has not been set, a story hour will be held at the library for the entertainment of children.

All of the doctors of the city and a number of trained nurses are to assist in making the week an educational success. The purpose of the week is two fold—first to give the parents of the community the opportunity of learning the facts with regard to the care of their babies and children; second to make known to the community the importance of its babies, the special facts relating to the babies of the community and the need of permanent work for their welfare.

The week is being observed all over the country by every city and town of very much size. It is in charge, here, of the federated clubs of this city. The committee which is forwarding its success is composed of Mrs. Guy Abernethy, chairman of sixth district clubs, Mrs. E. B. Thomas, a member of the Home Economics committee of the clubs of the district, Mrs. L. C. Lambert, ex-member of the committee. Miss Straight, visiting nurse, Miss Kate Dennis and Mrs. A. G. Reeves.

## MRS. W. H. MOYER EXPIRES

Former Rush County Woman Dies at Connersville of Cancer

Mrs. William H. Moyer, 75 years old, a former resident of this county, died this morning at four o'clock at her home in Connersville, following a long illness from cancer of the stomach. She is survived by her husband and one daughter, Mrs. George E. Rees, who is extensively related here. The funeral services will be conducted Friday afternoon at two o'clock at the late residence.

## DO MORE THAN MAKE A WILL

### APPOINT A CORPORATE EXECUTOR

Do not impose the administration of your estate upon a Friend or Relative.

He may be ever so well-meaning and have good intentions, yet by experience not fully qualified to do so; or to realize the utmost from your property.

Your Estate in trained hands will increase in value.

In your Will name our Trust Co. as your Executor.

We will co-operate with your Lawyer in the conduct of your business; and we will handle your Estate just as you wish—economically and faithfully.

### Uric Acid Poisoning!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric at any drug store and get relief from the pain and ills brought about by uric acid; or send Dr. Pierce 10c. for trial pkg. Anuric which you will find many times more potent than lithia and eliminates uric acid almost as hot water melts sugar. A short trial will convince you.

Anuric is a regular insurance and life-saver for all big meat eaters and those who deposit lime-salts in their joints.

### OLD-TIME REMEDY MAKES BLOOD PURE.

Elkhart, Ind.—“When I was a girl just coming into womanhood I suffered greatly. I became weak and nervous, in fact, all run-down in health. In addition to this I had a breaking-out all over my body. At times it would act like eczema and then again it seemed that it was scrofula. I could not get anything that did me any good until my mother began giving me Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. They proved to be just what I needed as I have never had any more womanly trouble, and they also cured me of the breaking-out on my body. I cannot say enough in praise of Dr. Pierce's medicines since they did so much for me.”—MRS. GEO. FLENNER, 403 E. Jackson St.

### Notice of Improvement Resolution

TO WHOM IT MAY CONCERN:  
Rushville, Ind., April 17, 1917.  
Notice is hereby given by the common council of the city of Rushville, Indiana, that it is desired and deemed necessary to make the following described public improvements in the city of Rushville, Indiana, as authorized by Improvement Resolution No. 58, adopted by said common council on the 17th day of April, 1917.  
The improvement of Third street in said city from east side of Julian street west to intersection of Third street and Buena Vista avenue, by constructing either Brick, Reinforced Cement, Asphalt and Wood Block.  
All work done in the making of the said described public improvements shall be in accordance with the terms and conditions of said improvement resolution and the detailed drawings, plans, profiles and specifications which are on file and may be seen in the office of the city clerk of said city of Rushville.  
The common council of said city has fixed TUESDAY, THE 18th DAY OF MAY, 1917, as a date upon which remonstrances may be filed or heard by persons interested in or affected by said described public improvement and on said day at 7:30 o'clock p. m., said common council will meet in the council chamber in said city of Rushville, for the purpose of hearing and considering any remonstrances which may have been filed, or which may be presented, and will hear all persons interested in or whose property is affected by said proposed improvements, and will decide whether the benefits that will accrue to the property abutting and adjacent to the proposed improvements, and to said city, will be equal to or exceed the estimated cost of the proposed improvement, as estimated by the city civil engineer.  
CARL L. GUNNING, City Clerk.  
April 18-25

## ATHLETES WILL HELP UNCLE SAM

Sports of Country Will Suffer But Training They Have Received Will Benefit.

CONSIDERED VERY VALUABLE

Will be Fit For War Duty Much Sooner Than the Average Recruit, it is Said.

BY H. C. HAMILTON.  
(U. P. Staff Correspondent.)

New York, April 18.—War is going to take an awful wallop at athletic sports in the United States, but at the same time it is going to be the means of demonstrating the wonderful efficiency in sports that has been attained in this country.

The base ball players, the track athlete, the boxer, the trapshooter all undoubtedly will be seen in action, and they all have been given training that will make them valuable.

Baseball training, it has many times been pointed out, is admirable for training men in the use of grenades or bombs. There isn't another nation in the world where baseball is played as it is in this country. Consequently there isn't a country where the knack of accurate throwing is developed.

There is the trapshooter who turns in his fifty broken birds out of fifty shot, and plenty of them that pull down ninety-some out of 100. It isn't at all mere speculation to figure that he could do as well in a trench with a machine gun to guide or with a rifle glued to his shoulder.

Fine condition, health and no nerves belong to this class of men. They are splendid specimens of Americans, nearly every one of them. A brigade of them could be fit for war duty probably in half the time it would take to prepare as many ordinary men.

They'll be ready when the time comes. Expressions of willingness to serve have been heard from the ranks of every branch of sport. Jess Willard's offer of service probably could be turned into an unpre-

## VICKERY WILL DRIVE WILBUR S. THIS YEAR

Cambridge City Reinsman Will Pilot Horse Which the Late Curt Gosnell Owned.

SOLD IN CHICAGO FOR \$1,225

Cambridge City, Ind., April 17.—Howard Vickery, reinsman, who sent the new famous Cambridge City pacer, Single G, under the wire in his first sensational Grand Circuit victory two years ago, is to have charge of Wilbur S, the promising young pacer sold in Chicago for \$1,225 to Harry Benedict of Buffalo. Wilbur S, was owned by Curtis Gosnell, who died from injuries received last year at North Randall track. Gosnell had nursed the young wiggler for a grand circuit campaign this year.

Vickery was almost a “pal” of Gosnell and when the veteran teamster became ill in the winter of 1915 and was unable to take Single G out for his opening events, Vickery took charge of the stallion. After the first three weeks Vickery gave up the horse and came home; Johnson handling the pacer for two weeks until Gosnell became able to finish the campaign. Now Vickery gets the handling of the youngster on whom Gosnell was counting for performances as classy as Barefoot's sensational boy.

### HOOSIER BRIEFS.

Crawfordsville.—Following the first drill of 200 students of Wabash college, the men returned to the institution and found the doors nailed shut. President Mackintosh announced recently that if the United States entered the war, the doors of the college would be nailed shut, and some of the students evidently took him at his word.

cedented stimulus for recruiting.

If Willard's offer could be followed by every big star in all branches of sport it would mean a great deal to the government's preparations to help crush the Kaiser. They probably will come in.

## MAY CONSOLIDATE JACKSON SCHOOLS

Two Buildings are Condemned But Permission Will be Gained to Use Them Next Year

TWO OTHERS UNSATISFACTORY

A consolidated school in Jackson township looms up as a possibility in the near future. Four of the school buildings have been recommended for condemnation, but as the new building cannot be erected this year, permission to use the old buildings the coming school year will be secured and then next spring the consolidated school will likely be built.

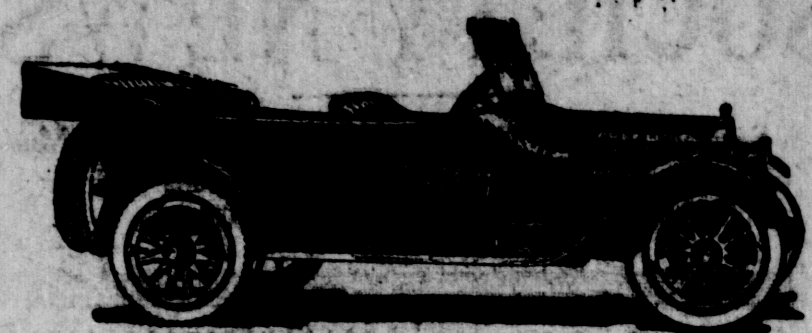

Under the plans of Trustee Joseph Stevens, the new consolidated school will be located near the center of the township, possibly on the Kiplinger farm. The state board of health has recommended that schools No. 5 and No. 1 be condemned. The other two schools which are not considered satisfactory are No. 2 and No. 3, but no action was recommended at this time.

As the time is short for erecting a new building, it is believed permission will be given to use all of the schools the coming year. Many taxpayers of the township signed the petition asking for the condemnation, which was circulated by Fred Oldham.

### FROM THE VIEWPOINT OF U. S.

Prof. Jenkins Will Lecture on War Here Thursday Evening

“The War Situation from the Standpoint of the United States,” is the general subject for the lecture to be given tomorrow evening by Prof. William E. Jenkins of Indiana university at the assembly room of the court house. The lecture will begin at eight o'clock. The public is invited to attend. No admission will be charged but an offering will be taken at the door to defray the expenses of the lecture. Prof. Jenkins comes here by request inasmuch as repeated requests have

### This Car Revises All Standards Of Motor Car Value

THE purchase of an automobile is the purchase of certain elements of physical satisfaction and mental enjoyment, least of which is by no means pride of ownership. The measure in which your car gratifies your desire for these enjoyments, as compared with other cars, establishes its value in your eyes.

In the new Oldsmobile, Model 45, you are enabled to secure the fullest measure of physical satisfaction, as determined by smooth, effortless performance, and of pride of possession, as warranted by superior coachwork and utmost refinement of finish,—at a cost that establishes this car as a new standard of motor car value.

The car is built in four body styles at the following prices—\$1367 for the seven-passenger, and \$1295 for the five-passenger, club roadster and convertible roadster models, f. o. b. Lansing.

The seven-passenger is now on display at our showroom. Call or write today for a demonstration.

# Moline Universal One Man Tractor

The Most Powerful Tractor in the World, to its Pounds of weight.

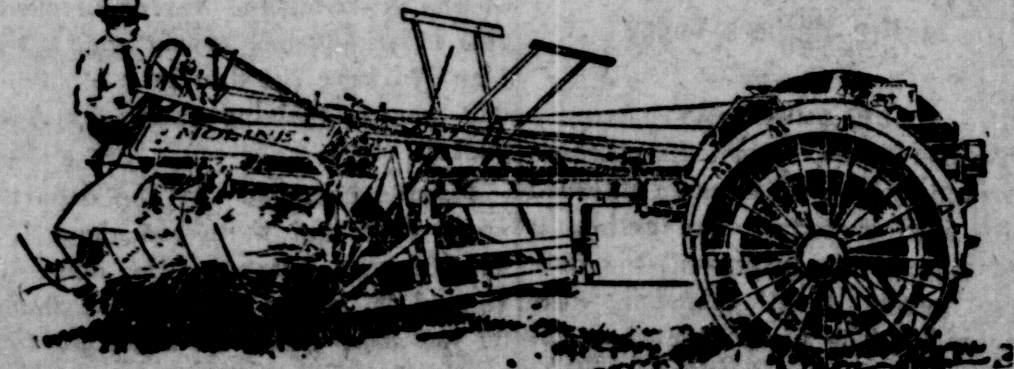

For All Field Work — Plowing, Harrowing, Planting, Cultivating, Mowing, Haying, Harvesting, Etc.

10 to 12 H. P. on the Belt for Stationary Work.

### REASONS WHY THE MOLINE-UNIVERSAL IS IN A CLASS BY ITSELF

- Operator controls entire outfit from the seat of the implement—only one man required.
- Pulls the usual 5-horse load.
- Does as much work as seven horses owing to its greater speed and endurance.
- Costs less than four horses.
- Requires less care than one horse.
- Eats only when it works.
- Weights about the same as a team, and from 1500 to 2000 pounds less than any other tractor of equal power.
- Handles easier than a team.
- All the weight on the drive wheels—every ounce available for traction.
- Turns in a 16-foot circle.
- Backs as easily as it goes forward.
- Plows from four to twelve acres a day.
- One wheel runs in the furrow—practically self steering.
- Does not pack the soil.
- Works close to fences and in corners—just right for work in small fields.
- Cultivates from sixteen to twenty acres a day.
- Thirty-one inches vertical clearance.
- Can easily and quickly be attached to mower, binder, hay rake, harrow, planter, lister, grain drill, etc.
- Develops from 10 to 12 h. p. for grinding, pumping, cutting silage, sawing wood, running lighting or power plant.
- Motor is two cylinder opposed, cast en bloc with detachable heads.
- Automatic force-feed lubricator oils all parts.
- High tension magneto—no batteries.
- Hyatt roller bearings used exclusively.
- Steel cut gears.
- Governor that perfectly controls motor at all speeds from 1 to 3 miles per hour.
- Traction lugs or cleats furnished to meet all soil conditions.
- Compact, simple and efficient.
- Regularly equipped with one 16 or 18-inch sulky, two bottom 12 or 14-inch gang or two disc gang, extra heavy construction and power lift.
- Can be furnished with rear carrying truck as an extra; also attachments for disc harrow, grain drill, planter, cultivator, mower, grain binder, corn binder, etc.
- Manufactured by a company with \$19,000,000 paid-up capital who will stand back of it.

On exhibition at Walter Duke's Farm. For further information see

WALTER G. DUKE

come to the Shakespeare Club, under whose auspices the lecture will be given, that he do so. He is particularly well informed on the war as his short talks following several of his lectures here have shown.

### "BIG DRIVE" TO INCREASE THE COUNTY'S CORN YIELD

Continued from Page 1.  
to fifty bushels. So it will be seen that improper germination due to lack of selecting seed corn is responsible for a loss of twenty-five bushels to the acre.

“Fourteen or fifteen ears of corn will plant an acre. If a farmer selects his seed corn—in other words tests it—it is supposed all will grow. If he doesn't test his seed corn the kernels from one or more ears may not grow. Let us suppose that one of the fifteen ears is not productive and the kernels do not germinate. It means that just that one poor ear causes a loss of one-fifteenth of the yield on that acre. With an average yield of 45 bushels, the loss to the acre is three bushels. The ear is scattered over the whole acre so that it is impossible to see the loss. I mean that there will not be just one row without any corn in it because the poor seed will be mixed with the good.”

There are several good methods of testing seed corn. The main point is that seed corn should be tested, the Purdue man said. The farmer in Rush county who tests his seed corn is very rare.

It has been shown, Mr. Whitsitt recalled, that more than a hundred bushels of corn to the acre can be raised in Indiana. Fred Thomas of Posey county, in a Purdue contest, raised 112 bushels. Fred Suhre of near Columbus raised over 100 bushels in a boys five-acre contest.

There are approximately 45,000 acres of corn grown in Rush county and an increase of just one bushel to the acre this year would mean a yield of 65,000 bushels more than in other years. There are five million acres planted in corn in Indiana every year, so that it will be seen what an increase of a bushel to the acre in the whole state would mean.

### REMONSTRATORS WILL BE HEARD HERE ON MAY 15

Continued from Page 1.  
corporation line on the south is in very bad condition. This part is on the townships and some way will have to be found to get the township to repair its part.  
Mayor Debut called the council's attention to the proposition of holding a clean-up week about the year.

After a short discussion it was decided that the second week in May would be observed as clean-up week. It begins Monday, May 7. The usual plan will be followed.

Under suspension of the rules, an ordinance increasing the pay of the policemen from \$60 to \$65 a month was passed. The ordinance also changes the time of paying the policemen to twice a month instead of monthly as at present. The salary of the chief of police was not altered, but he is to receive his pay semi-monthly in the future.

## EAT LESS—IT WILL DO YOU MORE GOOD

FOLLOW YOUR MEAL WITH A LITTLE PEPSINCO—YOUR FOOD WILL SATISFY FOR A LONGER TIME—NONE WILL BE WASTED. IT WILL DO YOU 100 PER CENT GOOD.

It's a mistaken idea that the more you eat the more good it will do you. It's not what you eat; it's what you digest that does you good. Eat less—take Pepsinco and you'll feel better—you'll thoroughly enjoy what you eat and you'll eat your food bill down.

Pepsinco is an aid to nature. It helps weak stomachs. It prevents strong stomachs becoming weak through carelessness in eating. Let Pepsinco digest the meal that you eat in a hurry. Time is money—Pepsinco is healthy. Give Pepsinco a try. Pepsinco is handy for such an emergency. Many suffer after every meal—they don't use Pepsinco. Thousands eat with a relish—they use Pepsinco.

No need for sour stomach, sick headache, indigestion, bloating, heartburn and food distress. Pepsinco must surely be used when your food sticks back; when stomach pains; when you belch up your stuff; when you get up in the morning with a meat, disagreeable, dark brown taste; when your food does not taste natural; when stomach aches at the sight of food; when sleep is interrupted with bad dreams; when breathing is heavy from gas pressure. Pepsinco never fails to help in all cases where acidity follows a meal. Thousands today are using Pepsinco, happy in the thought that they have a reliable guarantee to fall back on if stomach fails them. All grocers carry Pepsinco in small packages—large enough to save what they are worth. Get a package today, not a box and see how easy your stomach feels after your food bill goes.

# SOCIETY NEWS

Church Societies, Parties, Weddings, Dances, Literary and Musical Organizations, Sewing Circles, Card Clubs and Many Other Things of Interest to Women.

The Home Economics club will meet Saturday afternoon in the assembly room of the court house. Miss Straight will talk on "Practical Home Nursing."

Mrs. Chauncey Duncan was a most gracious hostess to the members of the S. E. T. Embroidery club, yesterday afternoon at her home in North Perkins street. After a pleasant hour over needlework, splendid refreshments were served.

A pleasant afternoon was spent by the members of the 1917 Embroidery club yesterday, when they were entertained by Mrs. Thomas Francis, at her home in Milroy. After a social afternoon, the guests enjoyed the splendid refreshments, which were served.

Six members of the D. C. Sewing club were entertained by Mrs. Louis Lambert yesterday afternoon at her home in East Seventh street. The entire afternoon was given over to needlework and refreshments were served by the hostess.

The regular meeting of the D. A. R. will be held Thursday afternoon at the home of Miss Alice Norris in North Harrison street. The study of Indiana Indians will be continued and Mrs. A. L. Gary will read a paper on the Cherokee Indian. A program of Indian songs will be given by Miss Charlotte Norris who will sing with ukulele accompaniment. Mrs. Sarah Guffin will read

Mrs. Fred Caldwell, assisted by Mrs. Taylor Kitchen and Mrs. Jeanette Carr entertained the Woman's Missionary Society of the First Presbyterian church, yesterday afternoon. The program was as follows: devotions, Mrs. Charles Hinkle; paper on "The Living Christ in Latin America," Mrs. Joe Cowing; Discretion, Mrs. B. O. Simpson and Mrs. Winnie Dill. A business meeting concluded the afternoon, and re-

## Social Calendar

Thursday

Yomo Club with Mrs. Russell Barringer, 1032 North Perkins street.

D. A. R. with Miss Alice Norris, 623 North Harrison street, in the afternoon.

P. A. C. club with Miss Gertrude Diekey, at her home in Falmouth.

Grand club with Mrs. Gay Abnerrombie, 613 North Main street.

freshments were served.

A wedding of local interest was that of Miss Faye Borchers and Sieber Nicholson, both of Indianapolis, which took place last evening at the home of the bride. Miss Eileen Mills of North Manchester, who is well known to many in this city, sang and Miss Fanny Stiers of this city was among the out-of-town guests in attendance.

The home of Mr. and Mrs. Jacob Webber was the delightful gathering place of Mr. and Mrs. Ernest Carpenter, Mr. and Mrs. Ed Oakley and daughter, Ethel, Mr. and Mrs. Frank Mellwain and family, Mr. and Mrs. Harry Allen and family, Mrs. Alva Newhouse and daughter, Ruth, Mrs. Marsh Tratt and Miss Ethel Tratt, and Lon Newhouse last evening, when they enjoyed a pitch-in supper and a social time over cards.

The formal dance given at the Social Club last evening proved to be one of the most enjoyable and successful ones of the season. There were twenty couples in attendance, the out-of-town guests were Miss Margaret Whitmore of Knightstown, Miss Edna Comstock of Shelbyville, Mrs. Mark Dennis of Indianapolis, Miss Edna Cornell of Cleveland and Earl Porter of Shelbyville. Splendid music was provided throughout the evening by the Mitchell orchestra, and a dainty buffet luncheon was served.

## 14,000 MEN CAPTURED BY ALLIES IN 9 DAYS

Field Marshal Haig is Increasing Pressure Around Lens and St. Quentin Hourly

### GERMAN ARTILLERY EXCITED

By WILLIAM PHILIP SIMMS (U. P. Staff Correspondent.) With the British Armies, April 18.—Capture by the British army since April 9 reached the vast total of 14,000 men and 227 guns today.

Around Lens and St. Quentin Field Marshal Haig is increasing the pressure each hour.

It was noticeable today that German artillery was firing wildly and was excited on the slightest provocation.

### DRIVES TOWARDS CAMBRAI

London, April 18.—Field Marshal Haig's drive today was towards Cambrai. Capture of a village nine miles south of Cambrai was announced. Improvement of British positions was also announced he said.

## School Gardens Will be Helpful

Helpful Hints Which Children Obtain May be Used to Advantage in Home Gardens. Schools Should Have Individual Gardens if Possible.

By CARL VROOMAN  
Assistant Secretary of Agriculture  
Member of National Emergency Food Garden Commission  
(Written for United Press.)

Washington, April 18.—The school garden can be made of great assistance to city folks planning to best the cost of living by planting back yard gardens this year. The helpful hints which the little ones get in the school gardens can be employed profitably in the home garden.

The National Emergency Food Garden Commission is making a special effort to interest school children in gardening, as the knowledge gained therein is very valuable.

The school should have individual gardens, if possible, for the pupil will take much greater interest in his own little patch than he will in a common ownership of garden. His pride will be excited and he will want to do his best. Since the area must, of course, be limited the school garden must eliminate the broad leaved, tall, climbing plants. Beans, beets, lettuce, radishes, and even tomatoes can be recommended.

Make the rows run the short way of the garden and be a foot apart with the exception of the rows of tomatoes, which should be 20 inches apart. A rotation of crops, in order to get the most out of the area, just as was outlined in the Daily Republican yesterday, should be planned. Quick maturing crops should be planted in groups, thus providing as much area as possible when it comes time for replanting.

All work should be done by the pupils as well as planting the seed and caring for the plants. The teacher can explain the reason for each step. This entire dependence upon the pupil will be to his best interest and if success comes it will all be his.

Here are suggestions for the school gardens:

Lettuce should be sown in drills in the open or in boxes in the windows. If in the open, the seeds should be scattered about half an inch apart along the row. Cover with not more than one-half inch

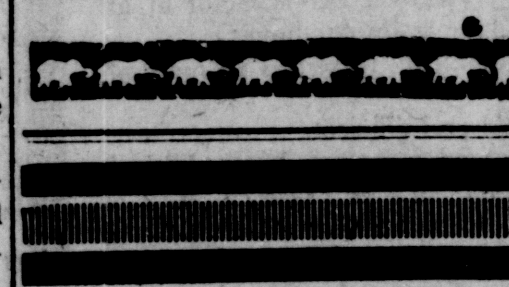

## Avoid Oily Skin and Shiny Nose

A new and effective treatment for oily and flabby skins, has recently been perfected.

The use of astringent cream at night and astringent lotion during the day will remove the oily appearance and improve the texture of the skin—Free demonstration and explanation of treatment at—

## Floorcoverings-Draperies

To those contemplating refurnishing their home with rugs, carpets, window shades, new draperies, linoleum or lace curtains, a visit to this store should prove valuable. We are in the midst of a very busy season and the sooner you make your selection, the sooner shall we be enabled to deliver them.

Anything in rugs from a rag rug to the very best quality of Royal Ka Shan Wilton in sizes ranging from 18 by 27 inches to 12 by 15 feet. Our patterns are beautiful, and you may choose from a splendid assortment. We are showing a large selection of inlaid linoleums and printed linoleums from 8/4 to 16/4. Our floorcoverings were bought early and are far under-priced.

You may choose any color in Window Shades in several qualities from the paper shades to the Victor duplex oil shade. Our reputation in regard to 3/4 carpet has extended far and wide. An expert man is at your disposal to make and lay this season's carpet. We guarantee satisfactory workmanship.

## Curtains and Curtain Materials

Fabrics that will help give the home the brightness and cheeriness of the new season. Our line of draperies respond at once to the demand for uncommon effects—they emphasize the fact that dignity and refinement in decoration are not so much a matter of affluence, as of good taste. The materials range from the filmiest voiles in the most delicately colored tints to the weightier fabrics—weightier in weave, as well as in design and in coloring.

You may choose from Madras, Sunfast, Chintz, Fancy Tickings, Cretonnes, Repp, Nets, Marquisettes, Scrims and Tapestry.

Curtains and Draperies are a necessity in every home. Get the most pleasing effects from them by using the Kirsch Flat Rod. The Kirsch Flat Rod makes it decidedly easy for anyone to secure charming window decorations—the kind that convey the impression of having been executed by an expert.

Don't miss the opportunity to look through these departments.

### MODIFIED CONSCRIPTION PROBABLY WILL PASS

Continued from Page 1.

even stronger than ever.

The military committee voted 11 to 8 to give trial to a measure which would empower the president to try out selective conscription.

After this vote the military committee appointed a sub-committee to draft a substitute measure with the volunteer feature.

In anticipation of early action on the draft bill the war department this afternoon has nearly completed plans to have the first levy of 500,000 men in training camps by August 1.

Figures compiled by the department show that there are about 7,000,000 men between the ages of 19 and 25 in the country, of whom 60 per cent would be available for service.

## URGES CITIES TO CARRY THEIR PART

Governor Goodrich Sends Letter to Indiana Mayors Asking All to Help in Crisis

WOULD TILL ALL UNUSED LAND

Calls Attention to Ruling Which Permits City Council to Appropriate Funds.

Governor Goodrich has sent a letter to all Indiana mayors, one of which has been received by Mayor Bebout, urging the people of the cities of Indiana to fill every available bit of land. Enclosed with the letter is an opinion given by the attorney general in which he holds that it is legal for city councils to appropriate funds to promote the movement for increased yields of food crops. The governor's letter follows:

"To Mayors of Indiana Cities:—The world is facing a food shortage. The United States, which is a strictly agricultural country, has before it the problem of producing food stuffs for the people within its borders and the further responsibility of assisting and feeding the starving nations of Europe. In this crisis it is the duty of every man, woman and child to exert every effort in the production of foodstuffs. Thousands of acres of land idle lie within the boundaries of Indiana cities. At this time when the need for food is so great we cannot, as patriotic citizens, stand idly by and have these lands remain uncultivated and unoccupied.

"As an interested mayor in a position to bring about an organization that will secure active co-operation among your people, I am calling upon you to call your people together and make plans for the utilization of all home gardens, vacant lots, and other unused land. Enclosed you will find a ruling from the Attorney

## REPORT FAVORS CONSOLIDATION

Committee is Favorable to Combining Franchise League and Equal Suffrage Association.

CONSTITUTION SUBMITTED

Can Not be Completed Until Both Organizations Vote on Proposition Submitted.

(By United Press.)

Indianapolis, Ind., April 18.—Consolidation of the Indiana Woman's Franchise league and the Indiana Equal Suffrage association was recommended today by Mrs. Grace Julian Clarke, chairman of the conference committee appointed by the Franchise league to meet with a similar committee of the Equal suffrage association. Mrs. Clarke's report was made at the morning session of the second day of the Franchise League's convention.

Many meetings have been held by the two committees during the year and a constitution agreed upon for the new organization. Mrs. Clarke submitted this constitution to the convention and recommended its adoption. The name of the new association was left blank in the constitution in order that it may be made to conform with the new name to be adopted by the National American Woman Suffrage association.

The consolidation will not be assured, however, even if the franchise league votes to adopt the constitution and favors the amalgamation, until the Equal suffrage association takes similar action in convention. The committee of the Equal Suffrage association will have to report back to its organization and have the plan approved before the final steps for combining the two organizations may be taken.

This will probably be accomplished at a joint convention to be called as soon as the Equal Suffrage association approves the plan.

Steps to make but one equal suffrage association in the state is in accordance with the wishes of the National association which has requested that all state bodies combine. Indiana has taken the lead, however, in this respect as some states have as many as four or five separate bodies.

Gov. Goodrich addressed today's meeting on "Tax Reforms."

General which will permit the city council to appropriate public funds to promote this work. Interested organizations of your city will co-operate. The state food director, Purdue University and other state forces will lend you aid. I sincerely hope that you will take up this matter at once, since the time is short and provide that your city do a large and valuable work. Please report to this office action taken in your city for the promotion of the movement for a larger food production.

"Very truly yours,  
"J. P. GOODRICH,  
"Governor."

## WILL CONTROL COFFEE CROP

American Dealers Will Get Two-Thirds of it.

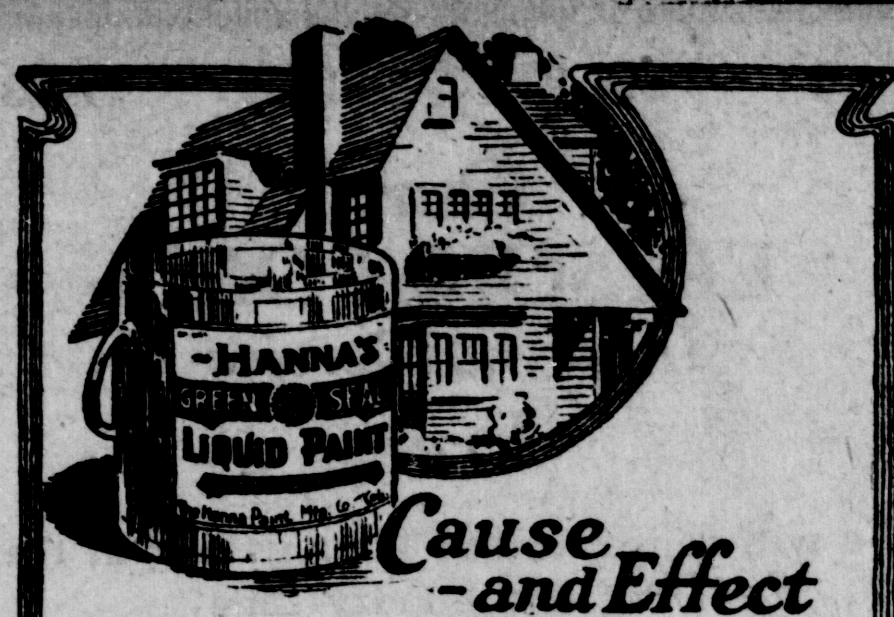

(By United Press.)

Rio de Janeiro, April 18.—The next Brazilian coffee crops is estimated at between 12 and 13 million bags of 132 pounds each. The extraordinary feature about this crop is that about two thirds of these bags will be bought, sold, shipped or otherwise handled for the first time by American business interests represented here in Brazil. War and American enterprise constitute the reasons.

The British blacklist, the shortage of shipping for European ports, lack of financial support and the departure of Germans to their own country to fight opened the door for Americans to take the coffee business from the Germans.

## FAVORABLE TO GROWING CROPS

March Not Damaging Though There  
Were Not Many Warm Days  
or Much Sunshine.

### A LOW WHEAT CONDITION

Many Factors Are Responsible,  
Main One Being Lateness in  
Seeding the Crop.

George C. Bryant, Indiana field  
agent for the United States depart-  
ment of agriculture, says in his re-  
port on March that the month was  
not unfavorable to growing crops,  
although there was not many warm  
days or much sunshine.

Many factors enter into making a  
low wheat condition figure at this  
time. To begin with, the crop was  
seeded exceptionally late and in  
many instances poor seed was used.  
The winter has been very severe.  
Little snow covering and several  
blizzards during the latter part,  
with exceptionally high winds, doing  
great damage on sand ridges, black  
soil, and high clay knobs, where the  
earth was literally blown from  
around the roots of the plant. Not-  
withstanding the severe cold, re-  
ports of "heaving" are very few;  
neither is damage by Hessian fly re-  
ported to any extent. Fields that  
were well sheltered and those sown  
early are in fairly good condition.  
With favorable weather conditions  
about the usual crop will be devel-  
oped.

The rye crop is not in as good con-  
dition as usual and much of it will  
be plowed under as fertilizer. The  
same conditions that injured the  
wheat has affected the rye.

The high percentage of mortality  
among live stock is due to the se-  
vere winter and insufficient feed.

There seems to be about as many  
brood sows as last year, although  
the high price and scarcity of feed  
has caused many of them to be sold.

### SCIENTISTS OFFER SERVICES

5,000 Skilled Men Have Been Listed  
by Government.

(By United Press.)

Washington, April 18.—Five  
thousand scientists, engineers and  
skilled mechanics have been listed  
by the civil service commission  
for service in the war. President  
Wilson has conferred with John A.  
McLhenny, president of the com-  
mission, relative to the quick mobili-  
zation of the country's scientific  
men. Arrangements have been  
made to speed up examinations for  
such applicants. No general relaxa-  
tion of requirements, however, is  
said to be contemplated.

### OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg  
Brest Tea, or as the German folks  
call it, "Hamburger Brust Thee," at any  
pharmacy. Take a tablespoonful of the  
tea, put a cup of boiling water upon  
it, pour through a sieve and drink a  
teacup full at any time during the  
day or before retiring. It is the most  
effective way to break a cold and cure  
grip, as it opens the pores of the skin,  
relieving congestion. Also loosens the  
bowels, thus breaking up a cold.  
Try it the next time you suffer from  
a cold or the grip. It is inexpensive  
and entirely vegetable, therefore safe  
and harmless.

### RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles  
with a small trial bottle of  
old St. Jacobs Oil

Stop "dosing" Rheumatism.  
It's pain only; not one case in fifty  
requires internal treatment. Rub sooth-  
ing, penetrating "St. Jacobs Oil" right  
on the "tender spot," and by the time  
you say Jack Robinson—out comes the  
rheumatic pain. "St. Jacobs Oil" is a  
harmless rheumatism cure which never  
disappoints and doesn't burn the skin. It  
takes pain, soreness and stiffness from  
aching joints, muscles and bones; stops  
sciatica, lumbago, backache, neuralgia.  
Limber up! Get a 25-cent bottle  
of old-time, honest "St. Jacobs Oil"  
from any drug store, and in a moment  
you'll be free from pains, aches and  
stiffness. Don't suffer! Rub rheuma-  
tism away.

Cotton seed meal for cattle and  
horses, tankage for hogs. J. P. Fra-  
zer.

### MAY REACH STRENGTH IN THE EARLY SUMMER

Enlistments in the Marine Corps the  
Last Few Days are Encourag-  
ing to Officers

### NET GAINS ARE MADE DAILY

Washington, April 18.—Enlist-  
ments in the Marine Corps in the  
last few days have broken all re-  
cords in the history of recruiting.  
These "Soldiers of the Sea" are  
making net gains daily of whole  
companies and battalions at their  
distinctive recruiting stations from  
coast to coast, according to re-  
ports just made public. Recruiting  
officials consider these increases  
just a start, however, as knowledge  
of and interest in this "two-in-one"  
land and sea service is rapidly  
growing. Present recruiting activi-  
ties indicate that the Marine corps  
will reach its newly authorized  
strength in the early summer.

The desire of red blooded Ameri-  
cans to be the first to take a shot  
at a periscope and the realization  
of the fact that we need Marines as  
well as submarines, at this time, is  
responsible for this material in-  
crease in Marine Corps recruiting,  
according to government officials  
here. "Join the Marines—the Min-  
ute Men of today—for immediate  
action!" is the popular slogan.

U. R. K. of P.

Regular meeting of Uniform Rank  
Knights of Pythias will be held  
Thurs. Apr. 19th. Important busi-  
ness will be transacted.

### \$100.00 REWARD.

\$100.00 in gold will be paid to whoever sug-  
gests the name that the judges select as the one  
best suited for our new remedy, the wonder tonic  
Tablet.

This formula has now been completed. It  
has been passed upon and pronounced good by  
prominent authorities. It is the last word in a  
remedy that builds, rejuvenates, invigorates the  
pale, the tired, the listless.

It is all ready—but the name.

We want the public to name this new won-  
der remedy and will give \$100.00 for that name.

Send in your suggestions—as many or as few  
as you like. The selection will be made by a board  
of five competent men whose decision shall be  
final and irrevocable and everyone who submits  
any suggestions thereby agrees to accept and abide  
by the decision of the Board of Judges.

Contest is open to all excepting the em-  
ployees of this Company. There are no condi-  
tions, no restrictions nor entrance fee.

Send in your suggestions promptly. Every  
suggestion will be numbered in the order of its  
receipt. Contest closes May 1, 1917.

Mail all suggestions to the Board of Judges,  
Care of The Santanel Remedies Co., Masonic  
Temple, Cincinnati, Ohio.

Gageby, Clerk. April-11-18

## A Few Timely Hints for Home Gardner to Follow

Department of Agriculture Horticulturists Outline Principles for Making a Success of the Home Vegetable Patch.

**XVIII. SQUASH.**

Summer squashes are to many an attractive addition to the home garden. Their culture is easy, according to the U. S. Department of Agriculture. Two or three hills will furnish enough for an average-sized family.

These squashes are not fastidious as to soils, though they, like most garden plants, prefer a warm, sandy loam. The most important requirements for success are abundance of manure and good cultivation. The hills may be spaced five or six feet apart. The plants will occupy the ground all summer if the fruits are harvested at usable stage.

In preparing a "hill" for the planting of summer squashes, a hole 2 1/2 feet square and 12 inches deep should be dug; a bushel basketful of manure should then be thoroughly mixed with the excavated soil, which is then replaced in the hole. It is better to use well-rotted manure, but if the mixing with soil is properly done there will be little danger of heating from fresh strawy manure. With chicken manure, use only one-half of this quantity.

This preparation can very well be done as soon as the ground is in condition for working in spring.

Squashes are tender plants, and cannot endure the slightest frost, so seed should not be planted until the soil is well warmed. Ten or a dozen seeds are planted usually in each hill. These should finally be thinned to one or two plants. The soil must be stirred by shallow cultivation until the plants cover the soil.

There are in use in this country several types of these squashes. They must all be used while very immature; if the thumb nail does not very readily puncture the skin of the fruit, it is past its best stage.

Scollon or Pattypan squashes occur in white and yellow colors. Yellow Summer Crookneck is also much planted and is a good variety. These squashes have short vines and are usually called bush forms. English forms of summer squashes are called vegetable marrows, and can be obtained from many American seedmen. There is also an Italian summer squash under the name of Cocozelle, which is offered by a few seedsmen. These last have long vines, and should be given as much as eight or ten feet between hills.

Winter squashes such as Hubbard, Green and Yellow, Delicious, and Boston Marrow require the cultural treatment given above, but should be given ten to twelve feet distance between hills. Winter squashes should be stored in a dry place where the temperature does not go below 45° or 50° F. An upstairs room is much better for this purpose than a cellar. The fruits must be thoroughly ripened, but not frosted.

The Rev. Daniel Ryan preached a most excellent sermon at the M. E. church here Sunday morning at 10:30 o'clock. Sunday school was held at 9:30 and the collection was \$2.48.

Mr. and Mrs. Raymond Carpenter spent Sunday with his parents near Andersonville.

Mrs. J. H. Link visited Mr. and Mrs. Elmer Stevens of Orange Sunday afternoon.

Mr. and Mrs. M. J. Reynolds and daughter Ella spent the week-end with Mr. and Mrs. Homer Nash and family near Gings.

Not many young men in this vicinity are enlisting.

A. P. Reynolds and daughter Vera visited in Indianapolis one day recently.

School has been dismissed here for the summer vacation.

The Rev. Daniel Ryan had an attack of acute indigestion last Friday but recovered sufficiently to preach three times Sunday.

**MANY CASES OF RHEUMATISM NOW**

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

**Glenwood**

Mr. and Mrs. Bunzendahl have moved into their home just south of Glenwood.

Roy Nelson of Kansas City, Mo., transacted business here last Thursday.

The "Old Maids Club" of this place will give their play, which was presented here and at Orange with much success, at the Odd Fellows hall in Falmouth on Saturday night.

Mrs. J. F. Mapes is suffering with the grippe and tonsillitis.

Dr. Osborne has purchased a new automobile.

Mr. and Mrs. Otto Cameron and son William spent the week end with Mr. and Mrs. Frank Cameron and son, Earl, of near Connersville.

The Rev. Daniel Ryan closed the revival meetings at the Orange M. E. church with three accessions. The church at Orange is one of the best in this district. The congregation is planning to make some improvements on the building this spring.

The usual services were held at the United Presbyterian church Sabbath afternoon.

**NAVAL REVOLT NIPPED IN BUD**

Peruvian Government Learned of Plot in Time.

(By United Press.)

Lima, Peru, April 18.—Charges that a number of important officers were implicated in a plot for a naval revolt are under investigation by the Peruvian government today.

The conspiracy is said to have been hatched in retaliation for the arrest of certain naval commanders. The ministry of marine gained an inkling of the situation and promptly dismantled the guns on the warships besides disabling the vessels' engines by removing essential parts of each which were locked up in the arsenal under heavy guard.

Decatur—Henry W. Goss, 58, was married to Violet Daugherty, 19, on Saturday and the following Monday the groom died. He passed away during a charivari of apoplexy.

## OUTLINES PROGRAM FOR CONSERVATION

Conference of Agricultural Representatives at St. Louis Adopts Plan to Conserve Food

### APPROPRIATION IS FAVORED

Mobilization of Army of Two Million Boys For Food Production is Also Recommended

Washington, April 18.—An emergency appropriation of \$25,000,000 to be made available immediately for the use of the Secretary of Agriculture to meet the extraordinary needs of agriculture; an urgent call to all farmers to increase production and to housewives to avoid all food waste; the mobilization of over 2,000,000 unemployed boys between the ages of fifteen and nineteen years for service on the farms and in the production of food supplies and munitions; the enlistment of men unfitted for military service as an officially recognized force for the production of necessities; a complete survey of the food supply; national systematic publicity of food prices; effective control of agencies for the manufacture and handling of foods, and price fixing, if necessary—these are among the leading recommendations of sixty-two officials representing State agricultural colleges and commissions of thirty-two States, from New York to the Rocky Mountains, who met at the request of the Secretary of Agriculture in St. Louis, last week. The conference, after dealing with the general problems of agriculture and organizing the Federal and State agencies for effective co-operation, made a special appeal to the patriotism of farmers and recommended a definite program particularly looking to the increase of cereal and leguminous food and meat and animal products. Home owners and their children were urged to produce as much food as possible in back yards and vacant lots and to can or preserve all surplus.

The conference, after thorough discussion, decided to deal with the whole subject of the food supply under four major divisions as follows:

1. Production and labor.
2. Distribution and Prices.
3. Economy and Utilization.
4. Effective Organization.

A committee of fifteen, composed of State commissioners of agriculture, representatives of State colleges, and representatives of the U. S. Department of Agriculture, was appointed. This committee appointed subcommittees from its membership to deal with each of the four problems. The committee then reported its findings to the general conference, which decided to express its views and to urge the courses of action as summarized below:

Upon the farmer rests in large measure the final responsibility of winning the war in which we are now involved. The importance to the nation of an adequate food supply, especially for the present year, can not be over-emphasized. The world's food reserve is very low. Therefore, the man who tills the soil and supports the soldier in the field, and the family at home, is rendering as noble and patriotic a service as is the man who bears the brunt of battle.

Within the next sixty days the final measure of crop acreage and food production for this year will have been established. We urge the importance of the immediate mobilization of all available service in performing the patriotic duty of providing and conserving food.

Because of the world shortage of food, it is scarcely possible that the production of staple crops by the farmer of the United States can be too great this year. There is every reason to believe that a generous price will be paid for the harvest of their fields.

To meet the extraordinary needs of agriculture in this emergency we recommend that an appropriation of \$25,000,000 or so much thereof as may be needed, to be available immediately for the use of the Secretary of Agriculture in such manner as he may deem best.

The situation which now pre-

## When You by an Eveready Storage Battery a written guarantee goes with it.

Because EVEREADY is the one storage battery entirely free from ruinous sulphation—the destructive chemical action responsible for nearly all automobile storage battery troubles.

The battery is the HEART of the starting system. When excess sulphation accumulates in the plates, the generator's charging action is retarded, reducing the battery capacity and its ability to supply the needed power to "turn over" the engine.

Continued operation in a partially discharged condition, or complete idleness for even a few weeks, usually means that the battery must be removed from the car for "reforming" or special charging, to reduce the accumulation of injurious sulphate. Buy an EVEREADY—and avoid all this expense and inconvenience.

**"BIG DRIVE" TO INCREASE  
COUNTY'S CORN YIELD STARTS**E. L. Whitsitt of Purdue Arrives  
Today and Will Remain Here  
Until End of Next Week

TO BE AT ARLINGTON TONIGHT

Loss Annually Due to Improper Germination of Seed Corn is Shown  
by Mr. Whitsitt

SECRET IS IN TESTING SEED

Reveals How by Careful Selection  
Average Should be 75 Bushels—Less Than 50 Here

The "big drive" for the improvement of Rush county's corn crop this year was started this morning when E. L. Whitsitt of Purdue university arrived here and placed his services at the disposal of the executive committee of the crop improvement organization.

He was assigned to Rush county by G. I. Christie of Purdue university, who has been appointed state food director by Governor Goodrich to increase the crop yields in Indiana this year on account of the war with Germany and the consequent need of more foodstuff because of the larger demands.

A man from Purdue has been sent to every county where there is not a county agent. In counties with such officials no crop director is needed. Mr. Whitsitt will be here until the end of next week, providing the committee can keep his occupied.

County Superintendent C. M. George, who is chairman of the executive committee took Mr. Whitsitt to visit the Rushville township schools this morning and this afternoon they spent in Posey township. Mr. Whitsitt will remain in Arlington and address the Posey township farmers meeting there tonight.

Township farmers meetings will be held all over Rush county tonight, as was planned at the meeting of the executive committee last Saturday, with the exception of Ripley township, which has already held such a meeting, and Washington township, which changed its meeting to Thursday night so that addresses could be made by Judge W. M. Sparks and A. L. Gary. Mr. Whitsitt will also speak at the meeting at Raleigh tomorrow night. A. L. Gary will speak at the Noble township meeting at New Salem tonight and other speakers are being arranged for at other township meetings.

Mr. Whitsitt's work will be directed solely towards increasing the yield of corn in Rush county. Special stress will be laid on seed selection as the method by which the production can be enlarged. It is not a question of a larger acreage because it is next to impossible to increase that at this time.

Mr. Whitsitt showed this morning the opportunity Rush county farmers have to do their share of the work that is developing upon the tillers of the soil in the war crisis. The question of crop improvement, it is pointed out, is no longer a question of personal gain—although this will come along with increased yields—but one of duty to one's country. It has been emphasized frequently in the last two weeks that the man who works in the field can be just as patriotic as the man who shoulders a gun by raising all that is possible on his ground.

Mr. Whitsitt says the average stand of corn in the state is seventy per cent, whereas with ideal seed it should be ninety per cent. When seed corn is tested there is a hundred per cent germination and ten per cent loss is allowed because of out worms and other things which attack the stock and the seed.

So in the whole state, Mr. Whitsitt points out, there is a loss of twenty per cent due to failure of the seed corn to germinate.

"There are an average of 3,500 hill—and sometimes there are as continued. "With two stalks to the hill—and sometimes there are as many as three stalks to the hill—there should be 7,000 stalks to the acre. Many farmers plant three kernels to the hill. The average weight on an ear of corn is three-fourths of a pound. With a ninety per cent stand, the yield should be seventy-five bushels to the acre. The average in this county is close

**CONSCRIPTION  
LIKELY TO PASS**Senate Committee Reports Bill Out  
This Afternoon in Modified  
Form by Vote of 10 to 7

HOUSE OPPOSITION APPEARS

War Department Has Plans to Get  
First Levy of 500,000 Men in  
Camps by August 1.

(By United Press.)

Washington, April 18.—Selective conscription as advocated by President Wilson towards raising an army of 2,000,000 men will probably pass in modified form.

Under the personal touches of President Wilson, who has visited the capitol to urge action, the senate committee this afternoon quickly reported out the measure with a promise of immediate action. Several committee members who insisted on the volunteer system, declared their intentions to fight to the last on the senate floor. The senate committee reported favorably on the bill by a vote of 10 to 7.

In the meantime house opposition to any kind of conscription—until the volunteer system is first tried—which appeared to crumble somewhat over night, sprang up again

**CINCINNATI LOOP  
ORDINANCE CARRIES**Estimated Vote Is Fully Two to  
One if Not Three to One, Thus  
Assuring I. & C. Extension

I. &amp; C. CAR TO RUN FIRST DAY

The rapid transit loop ordinance carried at Cincinnati yesterday by a vote estimated at fully two to one. It was thought that it might be as much as three to one as soon as the complete returns were in.

This assures the extension of the Indianapolis & Cincinnati traction lines from this city by way of New Salem, Andersonville, Brookville and Harrison, Ohio, according to the statements of Charles L. Henry, president of the I. & C., made in Cincinnati previous to the election. He stated repeatedly in public addresses there that the I. & C. would run a car over the loop the first day it was complete. It is not known how long it will take to build the loop. Mr. Henry said that work on the extension would start today if the ordinance passed, according to the Cincinnati Commercial-Tribune.

A subsidy has already been voted the extension in Rushville, Noble and Richland townships, and also in the townships in Franklin county through which the proposed extension will pass.

**GET PAY FOR NINE HORSES**W. E. Inlow and Others Win Dam-  
age Suit in Marion Circuit Court

William E. Inlow of this city, his brother, Cyrus E. Inlow and George O. Ogdon of Shelbyville won a judgment of \$1,593.93 from The Campbell & Reid and Western Sales Stables company of St. Louis in the Marion county circuit court yesterday for nine horses, intended for the allies armies in Europe, which suffocated in railroad transit from Shelbyville to Indianapolis. The jury upheld the contention of the plaintiffs, the loss of the horses, which were shipped in a box car instead of a stock car, was no fault of theirs. They had turned the stock over to the agent for the buyers.

**NO DOUBT ABOUT  
SHOT FROM U-BOAT**Report Direct From the U. S. De-  
stroyer Smith Says Officer on  
Deck Saw the Periscope

SOME THOUGHT IT A MISTAKE

Reports Are Received From Three  
Different Stations Confirming  
First Statements

(By United Press.)

Washington, April 18.—All doubt that a submarine actually fired at United States destroyer Smith was swept aside today when a report direct from the Smith said the officer on deck actually saw a periscope 400 yards from the vessel.

The statement of the officer was substantiated by the quartermaster of the turret crew.

Up to today some navy men had thought the Smith mistaken.

Reports were received from the Charleston navy yard that heavy firing was heard off Provincetown, Mass., early today. The report stated three separate stations told of the firing.

The first report was heard at 9:15 at the coast guard station at Provincetown. This statement said that seventeen shots were heard at intervals and after fifteen minutes.

**NEWCASTLE MEMBER  
OF THE GUARD GUILTY**Second Lieut. Robert Hall Sentenced  
to 20 Years For Negotiating  
Commission With Mexico

OTHER CHARGES PROVED TOO

Washington, April 18.—Second Lieutenant Robert Hall, First Indiana Infantry, Indiana National guard, has been sentenced to 20 years imprisonment on one charge that he negotiated a commission with the Mexican government. He was a member of the Newcastle company.

The charges against him included loss or disposition of confidential maps of the government in Mexico, bigamy, forgery, embezzlement, sedition and of disobeying standing orders.

He was found guilty of the charges with the exception of that charging loss of government maps.

The war department announced today that President Wilson had confirmed the court martial sentence and designated the United States penitentiary at Leavenworth, Kas., for his confinement.

New York, April 18.—Mr. Bernhardt has rallied from the operation performed at Mt. Sinai hospital last night and is resting easy. He is still seriously ill, but physicians are optimistic.

**REMONSTRATORS  
TO BE HEARD MAY 15**City Council Passes Improvement  
Resolutions for Paving Third  
Street and Oiling

CHARLES L. HENRY OBJECTS

Says Paving Would be Hardship  
Due to High Cost of Materials—Clean-up Week May 7

The city council last night adopted the paving plans and the plans for the paving of Third street, and after passing the improvement resolutions in both cases, set May 15 as the time for hearing remonstrances on the oiling and also on the paving of the street.

Charles L. Henry, president of the Indianapolis and Cincinnati Traction company, appeared before the council and asked that the paving of the street be deferred for the present. Mr. Henry told the council that he was well aware of the fact that the street needed improving and that his company was not opposing the improvement, but did not think this was the logical time for letting the contract.

Mr. Henry appealed to the council along patriotic lines, pointing out that his company along with every other company and individual will have to help bear the burden of the war. The present cost of materials and a shortage of labor also was pointed out to the council. If the street were put in the I. & C. would be required to build its tracks new and this cost at the present time would be very high. It is planned to use a steel tie in paving the street and Mr. Henry declared that it was impossible even to get quotations on steel. He pointed out that the abnormal prices would not last forever and that just as soon as prices dropped the traction company would gladly co-operate with the city in building the street.

The head of the traction company stated that ordinarily the traction line's cost of the improvement would be about \$6,000, but now with the increased cost of materials and labor the improvement would cost just about double. "Without a guarantee of being able to secure materials," said Mr. Henry, "I think it unwise for the council to let a contract at this time with no assurance that the street would be completed."

The council gave no indication of what it would do and proceeded to pass the resolution and adopt the plans and specifications. It was intimated that the council would go ahead to a point of receiving bids and if the bids were excessive, then the street would be permitted to drop until some future date. The plans call for the paving with four kinds of material, brick, concrete, asphalt and wooden blocks.

The oiling plans are similar to those of former years, except that they call for a lighter oil. The council and engineer agreed that a lighter oil should be used this year in view of the fact that the streets have been oiled for the past three years and an oil that will go in the ground is needed, it was believed.

While before the council President Henry called attention to the condition of Hodges branch and offered to co-operate with the city in repairing it so that the water will not overflow into Seventh street. He pointed out that traffic on his line had been delayed several times a year by high water. Mr. Henry was of the opinion that the ditch should be cleaned and then if the trouble was not eliminated it could easily be found and corrected. A petition asking for the repair of the drain will likely be filed. The city has been seeking to have the ditch repaired for the past three years, but could find no way to start the work. The part of the ditch owned by the city has been repaired.

**TWO MEN BEFORE THE MAYOR**Both Plead Not Guilty to Crimes  
Charged and Trials Are Set

Two men were arraigned before Mayor Bebout last night. Harry Barrett, charged with assault and battery on John Dixon pleaded not guilty and will be tried Monday morning at nine-thirty o'clock. The other was Frank Hudson, who was charged with permitting dead animals to remain on his premises. It is alleged that Hudson permitted a dead horse to remain on his premises longer than twenty-four hours as is provided by law. He entered a plea of not guilty and will be tried Monday morning at nine o'clock. The penalty for an offense of this kind is a fine of not less than \$5 nor more than \$25.

**RECRUITS BEING  
EXAMINED TODAY**Indications Are That Work Will be  
Completed by Tonight and  
Mustering Will Start

LIEUT. COSTER IS COMING

Seven Out of First Eight Undergoing  
Test Before Twelve O'clock  
Are Passed

The work of examining the men signed up for the local company of the National guard was progressing rapidly this afternoon and it was believed that most of the men would be examined by tonight. The examination was in charge of Lieut. Bruner of Greenfield, a member of the medical corps.

The examination was conducted at the office of Dr. Lowell M. Green. Each man was given a rigid physical test and it was estimated that a large per cent of the men signed up would pass.

An order was received this morning from Adjutant General Harry B. Smith that Lieut. Coster of the First Regiment would be here tonight to muster in the local company. Gen. Smith advised that a place be held in readiness for the mustering in of the company. It was believed that all those who passed the examination would be mustered in tonight and in case the examinations were not completed the other members would be added just as rapidly as they passed the tests.

There was an unmistakable air of military activity on the downtown streets of the city this morning. Groups of young men appeared on the streets early in the day and there were many questions as to where the examining officer was to be found. The room in Main street, that has been used for recruiting headquarters, was crowded all morning and there was great excitement around the place.

Lieut. Bruner arrived at ten o'clock and at once opened up headquarters in Dr. Green's office. The actual work of examining started at eleven o'clock and by noon eight men had been examined, seven passing. If this ratio was continued throughout the day, the local company will start off with a membership of well over the hundred mark.

PATRIOTIC MEETING

Milroy will hold a patriotic meeting Saturday afternoon. Elaborate arrangements are being made. Judges Will M. Sparks of this city will make the principal address. Arrangements are being made for a drum corps from this city to be there.

Postmaster Hunt has received some additional literature on the navy, showing the various branches of service and the requirements for prospective recruits.

**DATES FOR CHILD  
WELFARE WEEK SET**Special Observance Here Beginning  
April 28 Will Consist of Ser-  
ies of Lectures

PRIZES FOR BABIES OFFERED

Ones Making Most Progress in Six  
Months to Receive Awards—  
Whole City to be Aroused

"Better babies, better mothers, better city" is the slogan chosen for the child welfare week to be conducted in this city during the first week in May by the federated clubs of the city. The purpose of the movement has been broadened from a "Baby Week" to a "Child Welfare Week" in order that children of all ages may profit from the beneficial program which has been arranged.

The biggest meeting of the week and the one which will close the program will be conducted on Saturday afternoon, May fifth, in the Wyatt Furniture Store. At this time, Miss Straight, the visiting nurse, will give a talk on "The Baby." She, too, will demonstrate the proper way to dress, undress, and bathe the baby. In connection with her talk, exhibits will be given of the proper clothing for children to wear, the proper things for them to play with. Miss Kate Dennis, domestic science instructor in the high school, will give a talk on "School Lunches and Proper Balanced Diets." Her talk, which will include suggestions for diet of children of various ages will be augmented by a demonstration showing relative values of foods. Dr. W. S. Coleman and Dr. Lowell M. Green will give talks on the health of the baby and Dr. Chadwick will talk on the importance of caring for children's teeth. The program, in all, will be arranged so as to be instructive to parents of children of different ages as well as babies. The public is invited to this meeting and mothers are asked to bring their babies.

The program for the week will be opened on Saturday afternoon April 28 when an examination will be held at the Graham Annex of the babies. In six months, the same babies will be examined and those making the most marked progress in this time will receive the prizes. Very substantial prizes are being offered for the babies improving the most.

The prizes will be a deposit in each of the four banks of the city. The awards will be given by the banks—the Peoples National, the Rushville National, the Rush County National and the Farmers Trust Co. There will be a first and second prize for the little boys and a first and second for the little girls. Any baby in the county between the ages of eight months and two years is eligible. All mothers are urged to enter because of the worth of the examination to be obtained free of charge.

Continued on Page 4.

**Well Bought is Half  
Sold**

Merchandise that is well bought does not linger long on the store shelf. It does not stare the retailer in the face and keep him awake nights.

Nowadays, the wide-awake retailer picks his merchandise with the idea of making a quick turnover.

The public today is an informed public—and knows, through reading newspaper advertising, just what it wants.

Efficiency, speed, and economy to the retailer, and service and satisfaction to the customers, are assured in stores where up-to-date advertised brands of merchandise are shown.

# WHEAT QUOTATIONS ARE STRONGER TODAY

Regain Some of Yesterday's Losses But Hogs Decline Twenty-Five Cents.

## RECEIPTS ARE 500 GREATER

Wheat prices regained some of the heavy losses of yesterday, but hogs went off twenty-five cents in Indianapolis with receipts five hundred greater.

In Chicago, May wheat was up five and three-quarters; July, six and a half; September, two and three-eighths. May corn advanced three and a half; July, three cents; September, two and an eighth. May oats went up one and three-quarters; July, one cent; September, five-eighths.

In Indianapolis No. 2 red wheat was quoted nineteen and a half cents higher than yesterday and milling wheat went up fifteen cents. Corn was up a cent and a half and oats a cent.

## CARRANZA MOBILIZES HIS TROOPS ON BORDER

Army of 30,000 Mexicans Within Striking Distance of El Paso Causes Uneasiness

### CHASE FOR VILLA ABANDONED

El Paso, Tex., April 18.—General Carranza's mobilization of troops along the border continued today and it was learned that General Murgura has given up the Villa chase and returned to Juarez with his 5,000 men.

Withdrawal of virtually all of Carranza's forces from central Mexico has been completed. It is reported one state is now completely abandoned by the federal forces.

Approximately 30,000 Carranza troops are now within fighting distance of El Paso or other border points and the situation is causing uneasiness.

## AUSTRIAN CABINET QUILTS

Berlin, (Via London), April 18.—Resignation of two Austrian cabinet members was announced in Vienna and received here today.

Great significance may be attached to these resignations since they were members of the German party. It is possible that the German and Austrian censorship is concealing considerable anti-German feeling in Austria.

### DRYS WIN IN ILLINOIS

Chicago, April 18.—Voters of Illinois drove Old King Alcohol out of some of his third-line trenches yesterday, leaving his hold on the shattered line highly precarious. Twenty-one cities and towns voted on the wet-dry proposition and the drys made important gains. The most notable was the capture of Danville, home of "Uncle Joe" Cannon, hitherto an impregnable and insolent stronghold of the liquor interests.

The funeral services of William A. Arbuckle, who died yesterday at his home in Arlington, will be conducted Thursday morning at 11:30 o'clock at the late residence. The remains will then be taken to the

**The Harvest Emergency.**

The husbanding of a matured crop promptly is often the most vital and crucial point in production and is the point of the heaviest labor demand on the farm. The federal department of agriculture, co-operating with the state departments of agriculture and other agencies, should take steps to mobilize sufficient farm labor to meet all emergencies which may arise.

One of the principal limiting element of food production is the labor supply on the farm. Indiscriminate enlistment from the farms with no plan for labor replacement will reduce food production below its present low level.

The plan for public defense should include as definite a provision for enlistment for food supply as for service at the front.

More than two million boys between the ages of 15 and 19 years in the cities and towns now engaged in productive work vital to the nation constitute the most important labor resource, hitherto unorganized and unutilized, but available for this emergency.

The plan for military enlistment should be broadened to include in the national service those who, by reason of their age or physical condition, are permanently or temporarily incapacitated for active military duty but who are able to render the government equally indispensable service in the production of food, supplies and munitions.

This enlistment should include three classes of men—men beyond military age, men for military age but not accepted for active military duty, and boys under age for enlistment.

The government should make plans at once for the mobilization of this important resource for the production of food and other necessities. This proposed enlistment in the national service should be regarded as part of the public patriotic service in the present war and be given proper official recognition.

One of the practical patriots of the day will be the farmer who strains every nerve in the production of foodstuffs for the army and the civilian population. We can reduce our wardrobe to a shoe-string and a shirt if necessary, but we cannot subsist on water and wind.

The government is to control absolutely the prices which manufacturers may charge for war munitions. That's good. But let's go even farther and have a federal commission to prevent speculation in foodstuffs and jail the price boosters.

A movement is on foot for the government to confiscate all incomes in excess of \$100,000 a year. Guess all of us here are safe.

Love in a cottage is ideal—when the cottage contains something more substantial than love.

Just keep your eye on the Mex. He's worse than an egg that won't hatch.

**No Reflection on Patriotism.**

There are indications that there will be considerable opposition in the Senate and House of Representatives to the President's request for the adoption of the conscription system in raising the 2,000,000 men which will be needed in the near future to carry on the war. One of the chief arguments of those who apparently intend to oppose this military policy is that it is a reflection on the patriotism of our young men. But the plan is not advocated with any such idea in mind.

It is true that many thousands of our young men who volunteered to go to Mexico and "get Villa" became so disgusted at the policy of inaction which was pursued on the border that they are loath again to enter the military service, at least until they are assured that they will be engaged in work of a more serious nature than cleaning stables, policing camps, and guard mount. It is no lack of patriotism which causes them to hesitate. These are the very men who are anxious and willing to tackle the Huns.

Conscription is necessary, not primarily to gather in the "slackers," although it may serve its purpose in that direction, but because the conscription which is proposed is to be selective in its nature. It is a noble sentiment which prompts Americans in every walk of life to rush to the colors when the call to arms is sounded, and it is an inspiring sight to see, but the enthusiasm of the patriot does not always make for the best efficiency. The men on the farms, for instance, have always been foremost in responding to their country's call, but the vast army which we are about to raise should not include a disproportionate number of farmers, or of laborers.

Of the 28,000,000 persons engaged in gainful occupations in 1910, according to the census of that year—the latest available figures—17,000,000, or 45 per cent were between the ages of 21 and 44 years, or the class from which the bulk of the army will be recruited. There will be many who will fail on the physical test.

It is said that it requires the industry of 15 men to keep one soldier in fighting trim in the field, and it must not be overlooked that in addition to this the duty devolves upon us to prevent interruption to the food supplies and equipment which must go to our Allies, which are as necessary to them as our man-power. Bearing these considerations in mind, the value of selective conscription is apparent. Under such a policy no division of resources will be called upon to provide more than its fair share.

TO WHOM IT MAY CONCERN:

Rushville, Ind., April 17, 1917.

Notice is hereby given by the common council of the city of Rushville, Indiana, that it is desired and deemed necessary to make the following described public improvements in the city of Rushville, Indiana, as authorized by Improvement Resolution No. 57, adopted by said common council on the 17th day of April, 1917.

That the streets in the city of Rushville, Indiana, all work done in the making of the said described public improvements shall be in accordance with the terms and conditions of said improvement resolution and the detailed drawings, plans, profiles and specifications which are on file and may be seen in the office of the city clerk of said city of Rushville.

The common council of said city has fixed TUESDAY, THE 18th DAY OF MAY, 1917, as the date upon which remonstrances may be filed or heard by persons interested in or affected by said described public improvement and on said day at 7:30 o'clock p. m., said common council will meet in the council chamber in said city of Rushville, for the purpose of hearing and considering any remonstrances which may have been filed, or which may be presented, and will hear all persons interested in or whose property is affected by said proposed improvements, and will decide whether the benefits that will accrue to the property, abutting and adjacent to the proposed improvements, and to said city will be equal to or exceed the estimated cost of the proposed improvement, as estimated by the city civil engineer.

**DATES FOR THE CHILD WELFARE WEEK ARE SET**  
Continued from Page 1.

Displays of interest to children and their mothers are to be made in all of the stores and store windows. A number of merchants have signified their intention of co-operating to make the week a success by making extensive displays of children's apparel, furniture, playthings and other things of interest. All of the merchants are urged to make exhibits so that the entire city may catch the spirit of the purpose and the benefit of the week.

The school children will have an opportunity to co-operate, for prizes will be offered in an essay contest, when the children will be asked to write on some phase of "Child Welfare." On one afternoon of the week set aside, although the day has not been set, a story hour will be held at the library for the entertainment of children.

All of the doctors of the city and a number of trained nurses are to assist in making the week an educational success. The purpose of the week is two fold—first to give the parents of the community the opportunity of learning the facts with regard to the care of their babies and children; second to make known to the community the importance of its babies, the special facts relating to the babies of the community and the need of permanent work for their welfare.

The week is being observed all over the country by every city and town of very much size. It is in charge, here, of the federated clubs of this city. The committee which is forwarding its success is composed of Mrs. Guy Abercrombie, chairman of sixth district clubs, Mrs. E. B. Thomas, a member of the Home Economics committee of the clubs of the district, Mrs. L. C. Lambert, ex-member of the committee. Miss Straight, visiting nurse, Miss Kate Dennis and Mrs. A. G. Reeves.

**MRS. W. H. MOYER EXPIRES**

Former Rush County Woman Dies at Connersville of Cancer

Mrs. William H. Moyer, 75 years old, a former resident of this county, died this morning at four o'clock at her home in Connersville, following a long illness from cancer of the stomach. She is survived by her husband and one daughter, Mrs. George E. Rees, who is extensively related here. The funeral services will be conducted Friday afternoon

**DO MORE THAN MAKE A WILL**

**APPOINT A CORPORATE EXECUTOR**

Do not impose the administration of your estate upon a Friend or Relative.

He may be ever so well-meaning and have good intentions, yet by experience not fully qualified to do so; or to realize the utmost from your property.

Your Estate in trained hands will increase in value.

In your Will name our Trust Co. as your Executor.

We will co-operate with your Lawyer in the conduct of your business; and we will handle your Estate just as you wish—economically and faithfully.

### Uric Acid Poisoning!

The most eminent physicians recognize that uric acid stored up in the system is the cause of rheumatism, that this uric acid poison is present in the joints, muscles, or nerves. By experimenting and analysis at the Invalids' Hotel and Surgical Institute in Buffalo, N. Y., Dr. Pierce discovered a combination of native remedies that he called Anuric—which drives out the uric acid from the system, and in this way the pain, swelling and inflammation subside. If you are a sufferer from rheumatism, backache, pains here or there, you can obtain Anuric at any drug store and get relief from the pain and ills brought about by uric acid; or send Dr. Pierce 10c. for trial pkg. Anuric which you will find many times more potent than lithia and eliminates uric acid almost as hot water melts sugar. A short trial will convince you.

Anuric is a regular insurance and lifesaver for all big meat eaters and those who deposit lime-salts in their joints.

### OLD-TIME REMEDY MAKES BLOOD PURE.

Elkhart, Ind.—"When I was a girl just coming into womanhood I suffered greatly. I became weak and nervous, in fact, all run-down in health. In addition to this I had a breaking-out all over my body. At times it would act like eczema and then again it seemed that it was scrofula. I could not get anything that did me any good until my mother began giving me Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. They proved to be just what I needed as I have never had any more womanly trouble, and they also cured me of the breaking-out on my body. I cannot say enough in praise of Dr. Pierce's medicines since they did so much for me."—Mrs. Geo. FLENNER, 403 E. Jackson St.

### Notice of Improvement Resolution

TO WHOM IT MAY CONCERN:

Rushville, Ind., April 17, 1917.

Notice is hereby given by the common council of the city of Rushville, Indiana, that it is desired and deemed necessary to make the following described public improvements in the city of Rushville, Indiana, as authorized by Improvement Resolution No. 58, adopted by said common council on the 17th day of April, 1917.

The improvement of Third street in said city from east side of Julian street west to intersection of Third street and Buena Vista avenue, by constructing either Brick, Reinforced Cement, Asphalt and Wood Block.

All work done in the making of the said described public improvements shall be in accordance with the terms and conditions of said improvement resolution and the detailed drawings, plans, profiles and specifications which are on file and may be seen in the office of the city clerk of said city of Rushville.

The common council of said city has fixed TUESDAY, THE 15th DAY OF MAY, 1917, as a date upon which remonstrances may be filed or heard by persons interested in or affected by said described public improvement and on said day at 7:30 o'clock p. m., said common council will meet in the council chamber in said city of Rushville, for the purpose of hearing and considering any remonstrances which may have been filed, or which may be presented, and will hear all persons interested in or whose property is affected by said proposed improvements, and will decide whether the benefits that will accrue to the property abutting and adjacent to the proposed improvements, and to said city, will be equal to the cost of said improvements, and if not, will decide whether the same should be made, and if so, will decide the mode of making the same.

CARL L. GUNNING, City Clerk.

April 18-25

## ATHLETES WILL HELP UNCLE SAM

Sports of Country Will Suffer But Training They Have Received Will Benefit.

CONSIDERED VERY VALUABLE

Will be Fit For War Duty Much Sooner Than the Average Recruit, it is Said.

BY H. C. HAMILTON.  
(U. P. Staff Correspondent.)

New York, April 18.—War is going to take an awful wallop at athletic sports in the United States, but at the same time it is going to be the means of demonstrating the wonderful efficiency in sports that has been attained in this country.

The base ball players, the track athlete, the boxer, the trapshooter all undoubtedly will be seen in action, and they all have been given training that will make them valuable.

Baseball training, it has many times been pointed out, is admirable for training men in the use of grenades or bombs. There isn't another nation in the world where baseball is played as it is in this country. Consequently there isn't a country where the knack of accurate throwing is developed.

There is the trapshooter who turns in his fifty broken birds out of fifty shot, and plenty of them that pull down ninety-some out of 100. It isn't at all mere speculation to figure that he could do as well in a trench with a machine gun to guide or with a rifle glued to his shoulder.

Fine condition, health and no nerves belong to this class of men. They are splendid specimens of Americans, nearly every one of them. A brigade of them could be fit for war duty probably in half the time it would take to prepare as many ordinary men.

They'll be ready when the time comes. Expressions of willingness to serve have been heard from a number of every branch of sport. Jess Willard's offer of service probably could be turned into an unprecedented stimulus for recruiting.

## VICKERY WILL DRIVE WILBUR S. THIS YEAR

Cambridge City Reinsman Will Pilot Horse Which the Late Curt Gosnell Owned.

SOLD IN CHICAGO FOR \$1,225

Cambridge City, Ind., April 17.—Howard Vickery, reinsman, who sent the new famous Cambridge City pacer, Single G, under the wire in his first sensational Grand Circuit victory two years ago, is to have charge of Wilbur S, the promising young pacer sold in Chicago for \$1,225 to Harry Benedict of Buffalo. Wilbur S, was owned by Curtis Gosnell, who died from injuries received last year at North Randall track. Gosnell had nursed the young wiggler for a grand circuit campaign this year.

Vickery was almost a "pal" of Gosnell and when the veteran teamster became ill in the winter of 1915 and was unable to take Single G out for his opening events, Vickery took charge of the stallion. After the first three weeks Vickery gave up the horse and came home; Johnson handling the pacer for two weeks until Gosnell became able to finish the campaign. Now Vickery gets the handling of the youngster on whom Gosnell was counting for performances as classy as Barefoot's sensational boy.

### HOOSIER BRIEFS.

Crawfordsville.—Following the first drill of 200 students of Wabash college, the men returned to the institution and found the doors nailed shut. President Mackintosh announced recently that if the United States entered the war, the doors of the college would be nailed shut, and some of the students evidently took him at his word.

If Willard's offer could be followed by every big star in all branches of sport it would mean a great deal to the government's preparations to help crush the Kaiser. They probably will come in.

## MAY CONSOLIDATE JACKSON SCHOOLS

Two Buildings are Condemned But Permission Will be Gained to Use Them Next Year

TWO OTHERS UNSATISFACTORY

A consolidated school in Jackson township looms up as a possibility in the near future. Four of the school buildings have been recommended for condemnation, but as the new building cannot be erected this year, permission to use the old buildings the coming school year will be secured and then next spring the consolidated school will likely be built.

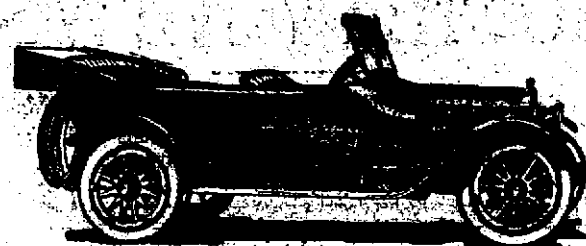

Under the plans of Trustee Joseph Stevens, the new consolidated school will be located near the center of the township, possibly on the Kiplinger farm. The state board of health has recommended that schools No. 5 and No. 1 be condemned. The other two schools which are not considered satisfactory are No. 2 and No. 3, but no action was recommended at this time.

As the time is short for erecting a new building, it is believed permission will be given to use all of the schools the coming year. Many taxpayers of the township signed the petition asking for the condemnation, which was circulated by Fred Oldham.

### FROM THE VIEWPOINT OF U. S.

Prof. Jenkins Will Lecture on War Here Thursday Evening

"The War Situation from the Standpoint of the United States" is the general subject for the lecture to be given tomorrow evening by Prof. William E. Jenkins of Indiana university at the assembly room of the court house. The lecture will begin at eight o'clock. The public is invited to attend. No admission will be charged but an offering will be taken at the door to defray the expenses of the lecture. Prof. Jenkins comes here by request inasmuch as repeated requests have

### This Car Revises All Standards Of Motor Car Value

THE purchase of an automobile is the purchase of certain elements of physical satisfaction and mental enjoyment, least of which is by no means pride of ownership. The measure in which your car gratifies your desire for these enjoyments, as compared with other cars, establishes its value in your eyes.

In the new Oldsmobile, Model 45, you are enabled to secure the fullest measure of physical satisfaction, as determined by smooth, effortless performance, and of pride of possession, as warranted by superior coachwork and utmost refinement of finish,—at a cost that establishes this car as a new standard of motor car value.

The car is built in four body styles at the following prices,—\$1367 for the seven-passenger, and \$1295 for the five-passenger, club roadster and convertible roadster models, f. o. b. Lansing.

The seven-passenger is now on display at our showroom. Call or write today for a demonstration.

come to the Shakespeare Club, under whose auspices the lecture will be given, that he do so. He is particularly well informed on the war as his short talks following several of his lectures here have shown.

"BIG DRIVE" TO INCREASE THE COUNTY'S CORN YIELD

Continued from Page 1.

to fifty bushels. So it will be seen that improper germination due to lack of selecting seed corn is responsible for a loss of twenty-five bushels to the acre.

"Fourteen or fifteen ears of corn will plant an acre. If a farmer selects his seed corn in other words tests it—it is supposed all will grow. If he doesn't test his seed corn the kernels from one or more ears may not grow. Let us suppose that one of the fifteen ears is not productive and the kernels do not germinate. It means that just that one poor ear causes a loss of one-fifteenth of the yield on that acre. With an average yield of 45 bushels, the loss to the acre is three bushels. The ear is scattered over the whole acre so that it is impossible to see the loss. I mean that there will not be just one row without any corn in it because the poor seed will be mixed with the good."

There are several good methods of testing seed corn. The main point is that seed corn should be tested, the Purdue man said. The farmer in Rush county who tests his seed corn is very rare.

It has been shown, Mr. Whitely recalled, that more than a hundred bushels of corn to the acre can be raised in Indiana. Fred Thomas of Posey county, in a Purdue contest, raised 112 bushels. Fred Schire of near Columbus raised over 100 bushels in a boys five-acre contest.

There are approximately 45,000 acres of corn grown in Rush county and an increase of just bare one bushel to the acre this year would mean a yield of 65,000 bushels more than in other years. There are five million acres planted in corn in Indiana every year, so that it will be seen what an increase of a bushel to the acre in the whole state would mean.

REMONSTRATORS WILL BE HEARD HERE ON MAY 15

Official notice is hereby given that the corporation line on the south is in very bad condition. This part is on the townships and some way will have to be found to get the township to repair its part.

Mayor Hobart called the council attention to the proposition to

After a short discussion it was decided that the second week in May would be observed as clean-up week. It begins Monday, May 7. The usual plan will be followed.

Under suspension of the rules, an ordinance increasing the pay of the policemen from \$80 to \$100 a month was passed. The ordinance also changes the time of paying the policemen to twice a month instead of monthly as at present. The salary of the chief of police was not altered, but he is to receive his pay semi-monthly in the future.

EAT LESS— IT WILL DO YOU MORE GOOD

FOLLOW YOUR MEAL WITH A LITTLE PEPSINCO—YOUR FOOD WILL SATISFY FOR A LONGER TIME—NONE WILL BE WASTED. IT WILL DO YOU 100 PER CENT GOOD.

It's a mistaken idea that the more you eat the more good it will do you. It's not what you eat; it's what you digest that does you good. Eat less, take Pepsinco and you'll feel better. You'll undoubtedly enjoy what you eat and you'll eat your food all down.

Pepsinco is as old as nature. It helps weak stomachs. It prevents strong stomachs becoming weak through carelessness in eating. Let Pepsinco digest the meat that you eat in a hurry. Time is money—Pepsinco is inexpensive. Hundreds have Pepsinco handy for such an exigency. Many suffer after every meal—they don't use Pepsinco. They should eat with a relish—they use Pepsinco.

No need for sour stomach, sick head, indigestion, flatulency, heartburn, acid eructations. Pepsinco must surely be used when your food kicks back, when stomach pains, when you feel in your stomach, when you get up in the morning with a mouth disagreeable, dark brown taste, when your food does not taste natural, when stomach matters at the sight of food. Then Pepsinco is indicated, with the result when breathing is heavy from gas and acids. Pepsinco never fails to help in all cases where indigestion follows a meal.

There are many who are in a very bad condition. This part is on the townships and some way will have to be found to get the township to repair its part.

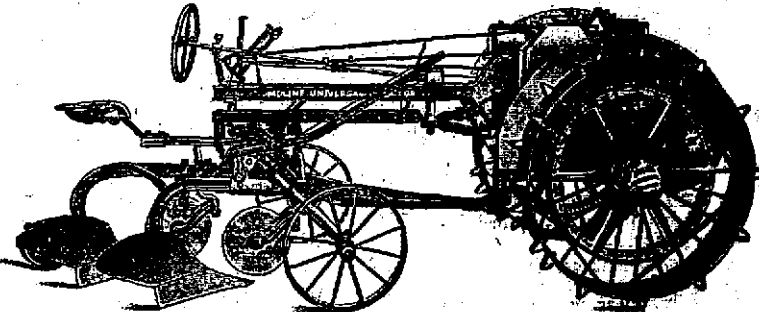

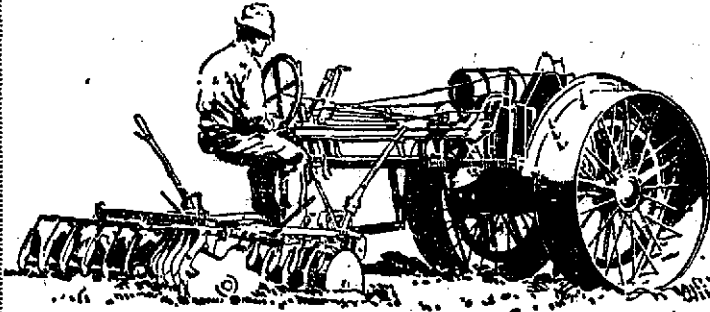

Mayor Hobart called the council attention to the proposition to

## Moline Universal One Man Tractor

The Most Powerful Tractor in the World, to its Pounds of weight.

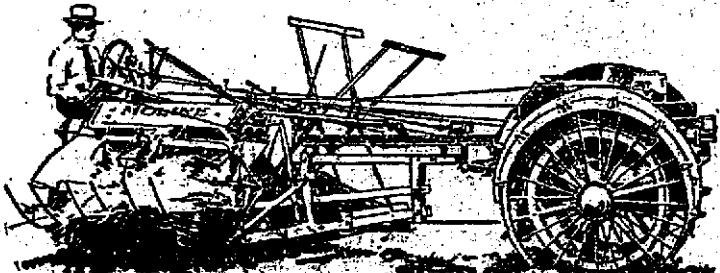

For All Field Work — Plowing, Harrowing, Planting, Cultivating, Mowing, Haying, Harvesting, Etc.

10 to 12 H. P. on the Belt for Stationary Work.

### REASONS WHY THE MOLINE-UNIVERSAL IS IN A CLASS BY ITSELF

- Operator controls entire outfit from the seat of the implement—only one man required.
- Pulls the usual 5-horse load.
- Does as much work as seven horses owing to its greater speed and endurance.
- Costs less than four horses.
- Requires less care than one horse.
- Eats only when it works.
- Weights about the same as a team, and from 1500 to 2000 pounds less than any other tractor of equal power.
- Handles easier than a team.
- All the weight on the drive wheels—every ounce available for traction.
- Turns in a 16-foot circle.
- Backs as easily as it goes forward.
- Plows from four to twelve acres a day.
- One wheel runs in the furrow—practically self steering.
- Does not pack the soil.
- Works close to fences and in corners—just right for work in small fields.
- Cultivates from sixteen to twenty acres a day.
- Thirty-one inches vertical clearance.
- Can easily and quickly be attached to mower, binder, hay rake, harrow, planter, lister, grain drill, etc.
- Develops from 10 to 12 h. p. for grinding, pumping, cutting silage, sawing wood, running lighting or power plant.
- Motor is two cylinder opposed, cast en bloc with detachable heads.
- Automatic force-feed lubricator oils all parts.
- High tension magneto—no batteries.
- Hyatt roller bearings used exclusively.
- Steel cut gears.
- Governor that perfectly controls motor at all speeds from 1 to 3 miles per hour.
- Traction lugs or cleats furnished to meet all soil conditions.
- Compact, simple and efficient.
- Regularly equipped with one 16 or 18-inch sulky, two bottom 12 or 14-inch gang or two disc gang, extra heavy construction and power lift.
- Can be furnished with rear carrying truck as an extra; also attachments for disc harrow, grain drill, planter, cultivator, mower, grain binder, corn binder, etc.
- Manufactured by a company with \$19,000,000 paid-up capital who will stand back of it.

On exhibition at Walter Duke's Farm.

## School Gardens Will be Helpful

Helpful Hints Which Children Obtain May be Used to Advantage in Home Gardens. Schools Should Have Individual Gardens if Possible.

By CARL VRODMAN  
Assistant Secretary of Agriculture  
Member of National Emergency Food Garden Commission  
(Written for United Press.)

Washington, April 18.—The school garden can be made of great assistance to city folks planning to best the cost of living by planting back yard gardens this year. The helpful hints which the little ones get in the school gardens can be employed profitably in the home garden.

The National Emergency Food Garden Commission is making a special effort to interest school children in gardening, as the knowledge gained therein is very valuable.

The school should have individual gardens, if possible, for the pupil will take much greater interest in his own little patch than he will in a common ownership of garden. His pride will be excited and he will want to do his best. Since the area must, of course, be limited the school garden must eliminate the broad leaved, tall, climbing plants. Beans, beets, lettuce, radishes, and even tomatoes can be recommended.

Make the rows run the short way of the garden and be a foot apart with the exception of the rows of tomatoes, which should be 20 inches apart. A rotation of crops, in order to get the most out of the area, just as was outlined in the Daily Republican yesterday, should be planned. Quick maturing crops should be planted in groups, thus providing as much area as possible when it comes time for replanting.

All work should be done by the pupils as well as planting the seed and caring for the plants. The teacher can explain the reason for each step. This entire dependence upon the pupil will be to his best interest and if success comes it will all be his.

Here are suggestions for the school gardens:

Lettuce should be sown in drills in the open or in boxes in the windows. If in the open, the seeds should be scattered about half an inch apart along the row. Cover with not more than one-half inch

## Avoid Oily Skin and Shiny Nose

A new and effective treatment for oily and flabby skins, has recently been perfected.

The use of astringent cream at night and astringent lotion during the day will remove the oily appearance and improve the texture of the skin—Free demonstration and explanation of treatment at—

### Many Spring Dresses Can be Improved With These Dainty Embroideries

We might add, inexpensively as well, for the Embroideries we have in mind are priced at but 10c to 50c a yard, and may be had in widths from one to eight inches.

There are Embroidered Nainsooks, Muslins and Cambric Edgings and Insertions.

### HOGSETT'S STORE

## Floorcoverings-Draperies

To those contemplating refurnishing their home with rugs, carpets, window shades, new draperies, linoleum or lace curtains, a visit to this store should prove valuable. We are in the midst of a very busy season and the sooner you make your selection, the sooner shall we be enabled to deliver them.

Anything in rugs from a rag rug to the very best quality of Royal Ka Shan Wilton in sizes ranging from 18 by 27 inches to 12 by 15 feet. Our patterns are beautiful, and you may choose from a splendid assortment. We are showing a large selection of inlaid linoleums and printed linoleums from 8/4 to 16/4. Our floorcoverings were bought early and are far under-priced.

You may choose any color in Window Shades in several qualities from the paper shades to the Victor duplex oil shade. Our reputation in regard to 3/4 carpet has extended far and wide. An expert man is at your disposal to make and lay this season's carpet. We guarantee satisfactory workmanship.

## Curtains and Curtain Materials

Fabrics that will help give the home the brightness and cheeriness of the new season. Our line of draperies respond at once to the demand for uncommon effects—they emphasize the fact that dignity and refinement in decoration are not so much a matter of affluence, as of good taste. The materials range from the filmiest voiles in the most delicately colored tints to the weightier fabrics—weightier in weave, as well as in design and in coloring.

You may choose from Madras, Sunfast, Chintz, Fancy Tickings, Cretonnes, Repp, Nets, Marquisettes, Scrims and Tapestry.

Curtains and Draperies are a necessity in every home. Get the most pleasing effects from them by using the Kirsch Flat Rod. The Kirsch Flat Rod makes it decidedly easy for anyone to secure charming window decorations—the kind that convey the impression of having been executed by an expert.

Don't miss the opportunity to look through these departments.

## The Mauzy Company

of earth. The earth should be made firm over them. When the plants are well up, thin to six inches apart. If window box, transplant young plants to stand two inches apart each way. When they begin to crowd, transfer them.

Radishes should be sown half an inch apart and not deeper than one inch, yet not less than half an inch, in rich, well-prepared soil. When showing the second set of true leaves should be thinned from one to two inches apart in the row.

Beans should be planted in the open for the best results. Delay their planting until sure the last frost has passed. Plant in rows one foot apart and place the seeds two inches deep at intervals of six inches. The soil must be kept loose and free from weeds.

Beets require a longer season for maturing than beans, radishes or lettuce, but they can be planted at the same time as radishes and lettuce. The seeds should be placed in rows one foot apart, an inch apart in the row, and covered one inch deep. When two inches high, thin to four inches apart in the row. Keep the soil well tilled.

### TAKES INTERNED VESSELS

Argentina Seizes All German Ships in Her Harbors Today

(By United Press.)

Buenos Aires, April 18.—Argentina today took all German interned ships into custody. The action, it was stated, was to prevent the German crews from smashing the machinery. The government has not announced what its attitude will be towards the submerging of an Argentine vessel. It was stated that only one death resulted from Saturday's rioting, a policeman being killed.

### MODIFIED CONSCRIPTION PROBABLY WILL PASS

Continued from Page 1.

even stronger than ever.

The military committee voted 11: to 8 to give trial to a measure which would empower the president to try out selective conscription.

After this vote the military committee appointed a sub-committee to draft a substitute measure with the volunteer feature.

In anticipation of early action on the draft bill the war department this afternoon has nearly completed plans to have the first levy of 500,000 men in training camps by August 1.

Figures compiled by the department show that there are about 7,000,000 men between the ages of 18 and 25 in the country, of whom 60 per cent would be available for service.

### NOTICE OF ADMINISTRATION

Notice is hereby given that the undersigned has been appointed by the Judge of the Circuit Court of Rush county, State of Indiana, administrator of the estate of William E. Havens, late of Rush county, deceased. All claims against said estate are to be presented to the undersigned.

## Notice to Farmers and Stock Raisers

We stand ready to offer you our immediate and prompt service. Our plant has just been inspected by the State Veterinarian and we have received our 1917 license.

Our wagons are properly disinfected before leaving our premises, therefore there can be no possible chance of carrying any diseases to your farm.

We employ our employees from the standpoint of efficiency, honesty and courtesy.

We will remove all dead animals from your farm, including hogs, colts, calves, sheep, as well as horses and cattle.

In case you have any of the above animals to die, we would appreciate your call and we will endeavor to please you with our service.

All charges are paid by us; if it is impossible for you to telephone, telegraph or drop us a card. All calls are answered day and night. Phone 1193.

## URGES CITIES TO CARRY THEIR PART

Governor Goodrich Sends Letter to Indiana Mayors Asking All to Help in Crisis

WOULD TILL ALL UNUSED LAND

Calls Attention to Ruling Which Permits City Council to Appropriate Funds.

Governor Goodrich has sent a letter to all Indiana mayors, one of which has been received by Mayor Bebout, urging the people of the cities of Indiana to till every available bit of land. Enclosed with the letter is an opinion given by the attorney general in which he holds that it is legal for city councils to appropriate funds to promote the movement for increased yields of food crops. The governor's letter follows:

"To Mayors of Indiana Cities:— The world is facing a food shortage. The United States, which is a strictly agricultural country, has before it the problem of producing food stuffs for the people within its borders and the further responsibility of assisting and feeding the starving nations of Europe. In this crisis it is the duty of every man, woman and child to exert every effort in the production of foodstuffs. Thousands of acres of land idle lie within the boundaries of Indiana cities. At this time when the need for food is so great we cannot, as patriotic citizens, stand idly by and have these lands remain uncultivated and uncropped.

"As an interested mayor in a position to bring about an organization that will secure active co-operation among your people, I am calling upon you to call your people together and make plans for the utilization of all home gardens, vacant lots, and other unused land. Enclosed you will find a ruling from the Attorney

## REPORT FAVORS CONSOLIDATION

Committee is Favorable to Combining Franchise League and Equal Suffrage Association.

CONSTITUTION SUBMITTED

Can Not be Completed Until Both Organizations Vote on Proposition Submitted.

(By United Press.)

Indianapolis, Ind., April 18.—Consolidation of the Indiana Woman's Franchise league and the Indiana Equal Suffrage association was recommended today by Mrs. Grace Julian Clarke, chairman of the conference committee appointed by the Franchise league to meet with a similar committee of the Equal suffrage association. Mrs. Clarke's report was made at the morning session of the second day of the Franchise League's convention.

Many meetings have been held by the two committees during the year and a constitution agreed upon for the new organization. Mrs. Clarke submitted this constitution to the convention and recommended its adoption. The name of the new association was left blank in the constitution in order that it may be made to conform with the new name to be adopted by the National American Woman Suffrage association.

The consolidation will not be assured, however, even if the franchise league votes to adopt the constitution and favors the amalgamation, until the Equal suffrage association takes similar action in convention. The committee of the Equal Suffrage association will have to report back to its organization and have the plan approved before the final steps for combining the two organizations may be taken.

This will probably be accomplished at a joint convention to be called as soon as the Equal Suffrage association approves the plan.

Steps to make "but one equal" suffrage association in the state is in accordance with the wishes of the National association which has requested that all state bodies combine. Indiana has taken the lead, however, in this respect as some states have as many as four or five separate bodies.

Gov. Goodrich addressed today's meeting on "Tax Reforms."

General which will permit the city council to appropriate public funds to promote this work. Interested organizations of your city will co-operate. The state food director, Purdue University and other state forces will lend you aid. I sincerely hope that you will take up this matter at once, since the time is short and provide that your city do a large and valuable work. Please report to this office action taken in your city for the promotion of the movement for a larger food production.

"Very truly yours,  
"J. P. GOODRICH,  
"Governor."

## WILL CONTROL COFFEE CROP

American Dealers Will Get Two-thirds of It.

(By United Press.)

Rio de Janeiro, April 18.—The next Brazilian coffee crops is estimated at between 12 and 13 million bags of 132 pounds each. The extraordinary feature about this crop is that about two thirds of these bags will be bought, sold, shipped or otherwise handled for the first time by American business interests represented here in Brazil. War and American enterprise constitute the reasons.

The British blacklist, the shortage of shipping for European ports, lack of financial support and the departure of Germans to their own country to fight opened the door for Americans to take the coffee business from the Germans.

### FAVORABLE TO GROWING CROPS

March Not Damaging Though There  
Were Not Many Warm Days  
or Much Sunshine.

#### A LOW WHEAT CONDITION

Many Factors Are Responsible,  
Main One Being Lateness in  
Seeding the Crop.

George C. Bryant, Indiana field  
agent for the United States department  
of agriculture, says in his report  
on March that the month was  
not unfavorable to growing crops,  
although there was not many warm  
days or much sunshine.

Many factors enter into making a  
low wheat condition figure at this  
time. To begin with, the crop was  
seeded exceptionally late and in  
many instances poor seed was used.  
The winter has been very severe.  
Little snow covering and several  
blizzards during the latter part,  
with exceptionally high winds, doing  
great damage on sand ridges, black  
soil, and high clay knobs, where the  
earth was literally blown from  
around the roots of the plant. Not-  
withstanding the severe cold, re-  
ports of "heaving" are very few;  
neither is damage by Hessian fly re-  
ported to any extent. Fields that  
were well sheltered and those sown  
early are in fairly good condition.  
With favorable weather conditions  
about the usual crop will be devel-  
oped.

The rye crop is not in as good con-  
dition as usual and much of it will  
be plowed under as fertilizer. The  
same conditions that injured the  
wheat has affected the rye.

The high percentage of mortality  
among live stock is due to the se-  
vere winter and insufficient feed.

There seems to be about as many  
brood sows as last year, although  
the high price and scarcity of feed  
has caused many of them to be sold.

#### SCIENTISTS OFFER SERVICES

5,000 Skilled Men Have Been Listed  
by Government.

(By United Press.)

Washington, April 18.—Five  
thousand scientists, engineers and  
skilled mechanics have been list-  
ed by the civil service commission  
for service in the war. President  
Wilson has conferred with John A.  
McLennan, president of the com-  
mission, relative to the quick mobi-  
lization of the country's scientific  
men. Arrangements have been  
made to speed up examinations for  
such applicants. No general relaxa-  
tion of requirements, however, is  
said to be contemplated.

#### OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg  
Bread Tea, or as the German folks  
call it, "Hamburger Brust Thee," at any  
pharmacy. Take a tablespoonful of the  
tea, put a cup of boiling water upon  
it, pour through a sieve and drink a  
teacup full at any time during the  
day or before retiring. It is the most  
effective way to break a cold and cure  
grip, as it opens the pores of the skin,  
relieving congestion. Also loosens the  
bowels, thus breaking up a cold.

Try it the next time you suffer from  
a cold or the grip. It is inexpensive  
and entirely vegetable, therefore safe  
and harmless.

#### RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles  
with a small trial bottle of  
old St. Jacobs Oil.

Stop "dosing" Rheumatism.  
It's pain only; not one case in fifty  
requires internal treatment. Rub sooth-  
ing, penetrating "St. Jacobs Oil" right  
on the "tender spot," and by the time  
you say Jack Robinson—out comes the  
rheumatic pain. "St. Jacobs Oil" is  
a harmless rheumatism cure which never  
disappoints and doesn't burn the skin. It  
takes pain, soreness and stiffness from  
aching joints, muscles and bones; stops  
sciatica, lumbago, backache, neuralgia.  
Limber up! Get a 25 cent bottle  
of old-time, honest "St. Jacobs Oil"  
from any drug store, and in a moment  
you'll be free from pains, aches and  
stiffness. Don't suffer! Rub rheuma-  
tism away.

Cotton seed meal for cattle and  
horses, tankage for hogs. J. P. Fra-  
zier.

#### MAY REACH STRENGTH IN THE EARLY SUMMER

Enlistments in the Marine Corps the  
Last Few Days are Encourag-  
ing to Officers

#### NET GAINS ARE MADE DAILY

Washington, April 18.—Enlist-  
ments in the Marine Corps in the  
last few days have broken all re-  
cords in the history of recruiting.  
These "Soldiers of the Sea" are  
making net gains daily of whole  
companies and battalions at their  
distinctive recruiting stations from  
coast to coast, according to re-  
ports just made public. Recruiting  
officials consider these increases  
just a start, however, as knowledge  
of and interest in this "two-in-one"  
land and sea service is rapidly  
growing. Present recruiting activi-  
ties indicate that the Marine corps  
will reach its newly authorized  
strength in the early summer.

The desire of red blooded Ameri-  
cans to be the first to take a shot  
at a periscope and the realization  
of the fact that we need Marines as  
well as submarines, at this time, is  
responsible for this material in-  
crease in Marine Corps recruiting,  
according to government officials  
here. "Join the Marines—the Min-  
ute Men of today—for immediate  
action!" is the popular slogan.

U. R. K. of P.

Regular meeting of Uniform Rank  
Knights of Pythias will be held  
Thurs. Apr. 19th. Important busi-  
ness will be transacted.

#### \$100.00 REWARD.

\$100.00 in gold will be paid to whoever sug-  
gests the name that the judges select as the one  
best suited for our new remedy, the wonder tonic  
Tablet.

This formula has now been completed. It  
has been passed upon and pronounced good by  
prominent authorities. It is the last word in a  
remedy that builds, rejuvenates, invigorates the  
pale, the tired, the listless.

It is all ready—but the name.

We want the public to name this new won-  
der remedy and will give \$100.00 for that name.

Send in your suggestions—as many or as few  
as you like. The selection will be made by a board  
of five competent men whose decision shall be  
final and irrevocable and everyone who submits  
any suggestions thereby agrees to accept and abide  
by the decision of the Board of Judges.

Contest is open to all excepting the em-  
ployees of this Company. There are no condi-  
tions, no restrictions nor entrance fee.

Send in your suggestions promptly. Every  
suggestion will be numbered in the order of its  
receipt. Contest closes May 1, 1917.

Mail all suggestions to the Board of Judges,  
Care of The Santanel Remedies Co., Masonic  
Temple, Cincinnati, Ohio.

Gault, Clerk. April-11-17

### A Few Timely Hints for Home Gardner to Follow

Department of Agriculture Horticulturists Outline Principles for Making a Success of the Home Vegetable Patch.

XVIII. SQUASH.

Summer squashes are to many an attractive addition to the home garden. Their culture is easy, according to the U. S. Department of Agriculture. Two or three hills will furnish enough for an average-sized family.

These squashes are not fastidious as to soils, though they, like most garden plants, prefer a warm, sandy loam. The most important requirements for success are abundance of manure and good cultivation. The hills may be spaced five or six feet apart. The plants will occupy the ground all summer if the fruits are harvested at usable stage.

In preparing a "hill" for the planting of summer squashes, a hole 2 1/2 feet square and 12 inches deep should be dug; a bushel basketful of manure should then be thoroughly mixed with the excavated soil, which is then replaced in the hole. It is better to use well-rotted manure, but if the mixing with soil is properly done there will be little danger of heating from fresh straw manure. With chicken manure, use only one-half of this quantity.

This preparation can very well be done as soon as the ground is in condition for working in spring.

Squashes are tender plants, and cannot endure the slightest frost, so seed should not be planted until the soil is well warmed. Ten or a dozen seeds are planted usually in each hill. These should finally be thinned to one or two plants. The soil must be stirred by shallow cultivation until the plants cover the soil.

There are in use in this country several types of these squashes. They must all be used while very immature; if the thumb nail does not very readily puncture the skin of the fruit, it is past its best stage.

Scollon or Pattypan squashes occur in white and yellow colors. Yellow Summer Crookneck is also much planted and is a good variety. These squashes have short vines and are usually called bush forms. English forms of summer squashes are called vegetable marrows, and can be obtained from many American seedmen. There is also an Italian summer squash under the name of Cocozelle, which is offered by a few seedsmen. These last have long vines, and should be given as much as eight or ten feet between hills.

Winter squashes such as Hubbard, Green and Yellow, Delicious, and Boston Marrow require the cultural treatment given above, but should be given ten to twelve feet distance between hills. Winter squashes should be stored in a dry place where the temperature does not go below 45° or 50° F. An up-stairs room is much better for this purpose than a cellar. The fruits must be thoroughly ripened, but not frosted.

to one or two plants. The soil must be stirred by shallow cultivation until the plants cover the soil.

There are in use in this country several types of these squashes. They must all be used while very immature; if the thumb nail does not very readily puncture the skin of the fruit, it is past its best stage.

Winter squashes such as Hubbard, Green and Yellow, Delicious, and Boston Marrow require the cultural treatment given above, but should be given ten to twelve feet distance between hills. Winter squashes should be stored in a dry place where the temperature does not go below 45° or 50° F. An up-stairs room is much better for this purpose than a cellar. The fruits must be thoroughly ripened, but not frosted.

County News

**Glenwood**

Mr. and Mrs. Bunzendahl have moved into their home just south of Glenwood.

Roy Nelson of Kansas City, Mo., transacted business here last Thursday.

The "Old Maids Club" of this place will give their play, which was presented here and at Orange with much success, at the Odd Fellows hall in Falmouth on Saturday night.

Mrs. J. F. Mapes is suffering with the gripe and tonsillitis.

Dr. Osborne has purchased a new automobile.

Mr. and Mrs. Otto Cameron and son William spent the week end with Mr. and Mrs. Frank Cameron and son, Earl, of near Connersville.

The Rev. Daniel Ryan closed the revival meetings at the Orange M. E. church with three accessions. The church at Orange is one of the best in this district. The congregation is planning to make some improvements on the building this spring.

The usual services were held at the United Presbyterian church Sabbath afternoon.

Mr. and Mrs. Raymond Carpenter spent Sunday with his parents near Andersonville.

Mrs. J. H. Link visited Mr. and Mrs. Elmer Stevens of Orange Sunday afternoon.

Mr. and Mrs. M. J. Reynolds and daughter Ella spent the week-end with Mr. and Mrs. Homer Nash and family near Gings.

Not many young men in this vicinity are enlisting.

A. P. Reynolds and daughter Vera visited in Indianapolis one day recently.

School has been dismissed here for the summer vacation.

The Rev. Daniel Ryan had an attack of acute indigestion last Friday but recovered sufficiently to preach three times Sunday.

NAVAL REVOLT NIPPED IN BUD

Peruvian Government Learned of Plot in Time.

(By United Press.)

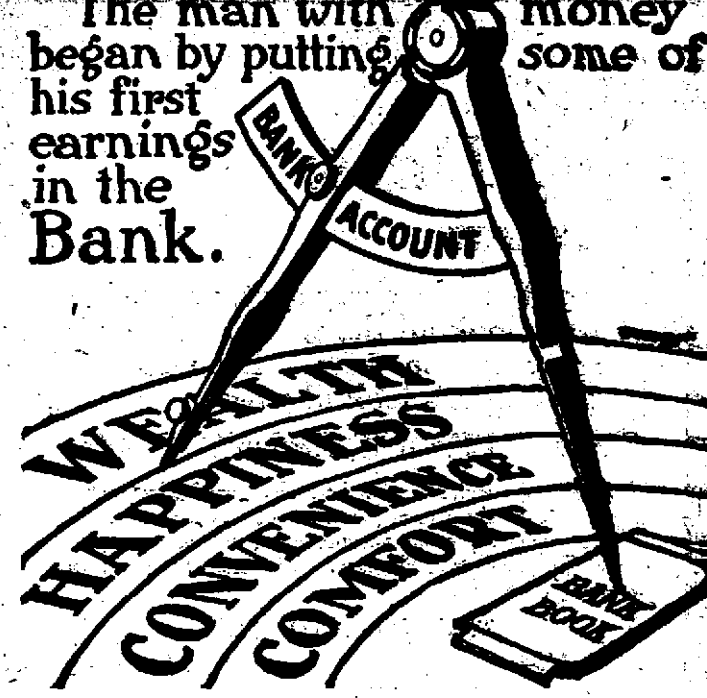

Lima, Peru, April 18.—Charges that a number of important officers were implicated in a plot for a naval revolt are under investigation by the Peruvian government today.

The conspiracy is said to have been hatched in retaliation for the arrest of certain naval commanders. The ministry of marine gained an inkling of the situation and promptly dismantled the guns on the warships besides disabling the vessels' engines by removing essential parts of each which were locked up in the arsenal under heavy guard.

Decatur—Henry W. Goss, 58, was married to Violet Daugherty, 19, on Saturday and the following Monday the groom died. He passed away during a chanvari of apoplexy.

The man with money began by putting some of his first earnings in the Bank.

It all started with the first deposit. His bank account grew until he was comfortable. Then the convenience of paying his bills with checks enabled him to keep his accounts straight and saved him time and worry. Happiness was the result of seeing it pile up and grow. All of a sudden he realized he was a man with WEALTH

YOU CAN GROW RICH too, if you will only put the money you have in your pocket RIGHT NOW into the bank and keep on ADDING to it. DO IT

PUT YOUR money in OUR bank. We pay 3 per cent interest on time deposits.

## Rush County National Bank

## Serum Station....

The Swine Breeders Pure Serum Company of Thorntown, Indiana, has established a Serum Station at Rushville for the benefit of their stockholders and also the farmers of this part of the State who want to use a high class serum.

We sell direct to the farmer and guarantee him the best, pure, potent serum and virus that can be obtained anywhere. This serum is strictly throat bleed serum, obtained by killing the hog outright and this is the only plant in the country using this method.

The company has arranged to keep serum on hands at Kramer's Cold Storage Plant, and anyone wanting serum can get it any time. We are prepared to answer calls for vaccination at all times and have an office with the Nipp Insurance Company over the Rushville National Bank.

## OUTLINES PROGRAM FOR CONSERVATION

Conference of Agricultural Representatives at St. Louis Adopts Plan to Conserve Food

### APPROPRIATION IS FAVORED

Mobilization of Army of Two Million Boys For Food Production is Also Recommended

Washington, April 18.—An emergency appropriation of \$25,000,000 to be made available immediately for the use of the Secretary of Agriculture to meet the extraordinary needs of agriculture; an urgent call to all farmers to increase production and to housewives to avoid all food waste; the mobilization of over 2,000,000 unemployed boys between the ages of fifteen and nineteen years for service on the farms and in the production of food supplies and munitions; the enlistment of men unfitted for military service as an officially recognized force for the production of necessities; a complete survey of the food supply; national systematic publicity of food prices; effective control of agencies for the manufacture and handling of foods, and price fixing, if necessary—these are among the leading recommendations of sixty-two officials representing State agricultural colleges and commissions of thirty-two States, from New York to the Rocky Mountains, who met at the request of the Secretary of Agriculture in St. Louis, last week. The conference, after dealing with the general problems of agriculture and organizing the Federal and State agencies for effective co-operation, made a special appeal to the patriotism of farmers and recommended a definite program particularly looking to the increase of cereal and leguminous food and meat and animal products. Home owners and their children were urged to produce as much food as possible in back yards and vacant lots and to can or preserve all surplus.

The conference, after thorough discussion, decided to deal with the whole subject of the food supply under four major divisions as follows:

1. Production and labor.
2. Distribution and Prices.
3. Economy and Utilization.
4. Effective Organization.

A committee of fifteen, composed of State commissioners of agriculture, representatives of State colleges, and representatives of the U. S. Department of Agriculture, was appointed. This committee appointed subcommittees from its membership to deal with each of the four problems. The committee then reported its findings to the general conference, which decided to express its views and to urge the courses of action as summarized below:

Upon the farmer rests in large measure the final responsibility of winning the war in which we are now involved. The importance to the nation of an adequate food supply, especially for the present year, can not be over-emphasized. The world's food reserve is very low. Therefore, the man who tills the soil and supports the soldier in the field, and the family at home, is rendering as noble and patriotic a service as is the man who bears the brunt of battle.

Within the next sixty days the final measure of crop acreage and food production for this year will have been established. We urge the importance of the immediate mobilization of all available service in performing the patriotic duty of providing and conserving food.

Because of the world shortage of food, it is scarcely possible that the production of staple crops by the farmer of the United States can be too great this year. There is every reason to believe that a generous price will be paid for the harvest of their fields.

To meet the extraordinary needs of agriculture in this emergency we recommend that an appropriation of \$25,000,000 or so much thereof as may be needed, be available immediately for the use of the Secretary of Agriculture in such manner as he may deem best.

The situation which now exists

## It Pays To Use Carter's Lead

The more experience and ability a master painter gains, the more particular he becomes about the material he uses. With thousands of these mature and skilled mechanics their use of CARTER LEAD is a matter of personal preference, a preference based not on prejudice or price, but on results and positive knowledge gained by experience. It protects your house—Cheap dope does not.

## When You by an Eveready Storage Battery a written guarantee goes with it.

Because EVEREADY is the one storage battery entirely free from ruinous sulphation—the destructive chemical action responsible for nearly all automobile storage battery troubles.

The battery is the HEART of the starting system. When excess sulphation accumulates in the plates, the generator's charging action is retarded, reducing the battery capacity and its ability to supply the needed power to "turn over" the engine.

Continued operation in a partially discharged condition, or complete idleness for even a few weeks, usually means that the battery must be removed from the car for "reforming" or special charging, to reduce the accumulation of injurious sulphate. Buy an EVEREADY—and avoid all this expense and inconvenience.
